## **FCC STATEMENT (USA)**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio or television technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**WARNING!** Exposure to Radio Frequency Radiation. The radiated output power of this device is below the FCC and Industry Canada radio frequency exposure limits. FCC requires the user to be notified that any changes or modifications made to this device that are not expressly approved by manufacturer, may void the user's authority to use the device. This device must not be co-located or operating in conjunction with any other antenna or transmitter. This device meets the FCC and IC requirements for RF exposure in public or uncontrolled environments.
