FOSSIL GROUP, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
UNAUDITED

1. FINANCIAL STATEMENT POLICIES

Basis of Presentation. The condensed consolidated financial statements include the accounts of Fossil Group, Inc., a Delaware corporation, and its wholly and majority-owned subsidiaries (the “Company”).

The condensed consolidated financial statements reflect all adjustments that are, in the opinion of management, necessary to present a fair statement of the Company’s financial position as of July 2, 2016, and the results of operations for the thirteen-week periods ended July 2, 2016 (“Second Quarter”) and July 4, 2015 (“Prior Year Quarter”), respectively, and the twenty-six week periods ended July 2, 2016 (“Year To Date Period”) and July 4, 2015 (“Prior Year YTD Period”). All adjustments are of a normal, recurring nature.

These interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto included in the Annual Report on Form 10-K filed by the Company pursuant to the Securities Exchange Act of 1934, as amended (the “Exchange Act”), for the fiscal year ended January 2, 2016 (the “2015 Form 10-K”). Operating results for the Second Quarter and Year To Date Period are not necessarily indicative of the results to be achieved for the full fiscal year.

The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”), which require the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the periods reported. Actual results could differ from those estimates. The Company has not made any changes in its significant accounting policies from those disclosed in the 2015 Form 10-K.

Business. The Company is a global design, marketing and distribution company that specializes in consumer fashion accessories. Its principal offerings include an extensive line of men's and women's fashion watches and jewelry, handbags, small leather goods, belts and sunglasses. In the watch and jewelry product categories, the Company has a diverse portfolio of globally recognized owned and licensed brand names under which its products are marketed. The Company's products are distributed globally through various distribution channels, including wholesale in countries where it has a physical presence, direct to the consumer through its retail stores and commercial websites and through third-party distributors in countries where the Company does not maintain a physical presence. The Company's products are offered at varying price points to meet the needs of its customers, whether they are value-conscious or luxury oriented. Based on its extensive range of accessory products, brands, distribution channels and price points, the Company is able to target style-conscious consumers across a wide age spectrum on a global basis.

Hedging Instruments. The Company is exposed to certain market risks relating to foreign exchange rates and interest rates. The Company actively monitors and attempts to manage these exposures using derivative instruments including foreign exchange forward contracts (“forward contracts”) and interest rate swaps. The Company’s foreign subsidiaries periodically enter into forward contracts to hedge the future payment of intercompany inventory transactions denominated in U.S. dollars. Additionally, during the first quarter of fiscal year 2016, the Company entered into forward contracts to manage fluctuations in Japanese yen exchange rates that will be used to settle future third-party inventory component purchases by a U.S. dollar functional currency subsidiary. If the Company was to settle its euro, British pound, Canadian dollar, Japanese yen, Mexican peso, Australian dollar and U.S dollar forward contracts as of July 2, 2016, the result would have been a net gain of approximately \$3.8 million, net of taxes. This unrealized gain is recognized in other comprehensive income (loss), net of taxes on the Company's consolidated statements of income and comprehensive income. Additionally, to the extent that any of these contracts are not considered to be perfectly effective in offsetting the change in the value of the cash flows being hedged, any changes in fair value relating to the ineffective portion of these contracts would be recognized in other income (expense)-net on the Company's consolidated statements of income and comprehensive income. Also, the Company has entered into interest rate swap agreements to effectively convert portions of its variable rate debt obligations to fixed rates. Changes in the fair value of the interest rate swaps are recorded as a component of accumulated other comprehensive income (loss) within stockholders' equity, and are recognized in interest expense in the period in which the payment is settled. To reduce exposure to changes in currency exchange rates adversely affecting the Company’s investment in foreign currency-denominated subsidiaries, the Company periodically enters into forward contracts designated as net investment hedges. Both realized and unrealized gains and losses from net investment hedges are recognized in the cumulative translation adjustment component of other comprehensive income (loss), and will be reclassified into earnings in the event the Company's underlying investments are liquidated or disposed. The Company does not hold or issue derivative financial instruments for trading or speculative

purposes. See “Note 10—Derivatives and Risk Management” for additional disclosures about the Company’s use of derivatives.

Operating expenses. Operating expenses include selling, general and administrative expenses (“SG&A”) and restructuring charges. SG&A expenses include selling and distribution expenses primarily consisting of sales and distribution labor costs, sales distribution center and warehouse facility costs, depreciation expense related to sales distribution and warehouse facilities, the four-wall operating costs of the Company’s retail stores, point-of-sale expenses, advertising expenses and art, design and product development labor costs. SG&A also includes general and administrative expenses primarily consisting of administrative support labor and “back office” or support costs such as treasury, legal, information services, accounting, internal audit, human resources, executive management costs and costs associated with stock-based compensation. Restructuring charges include costs to reorganize, refine and optimize the Company’s infrastructure and store closures.

Earnings Per Share (“EPS”). Basic EPS is based on the weighted average number of common shares outstanding during each period. Diluted EPS adjusts basic EPS for the effects of dilutive common stock equivalents outstanding during each period using the treasury stock method.

The following table reconciles the numerators and denominators used in the computations of both basic and diluted EPS (in thousands, except per share data):

	For the 13 Weeks Ended July 2, 2016	For the 13 Weeks Ended July 4, 2015	For the 26 Weeks Ended July 2, 2016	For the 26 Weeks Ended July 4, 2015

Approximately 1.9 million, 0.6 million, 1.7 million and 0.4 million weighted shares issuable under stock-based awards were not included in the diluted EPS calculation at the end of the Second Quarter, Prior Year Quarter, Year To Date Period and Prior Year YTD Period, respectively, because they were antidilutive. Approximately 1.1 million weighted performance shares were not included in the diluted EPS calculation at the end of the Second Quarter and Year to Date Period as the performance targets were not met.

Recently Issued Accounting Standards. In March 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-09, *Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting* (“ASU 2016-09”). ASU 2016-09 is intended to simplify several areas of accounting for share-based compensation arrangements, including the income tax impact, classification on the statement of cash flows and forfeitures. ASU 2016-09 is effective for annual periods, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. The Company is still evaluating the effect of adopting ASU 2016-09.

In March 2016, the FASB issued ASU 2016-04, *Liabilities—Extinguishments of Liabilities (Subtopic 405-20)- Recognition of Breakage for Certain Prepaid Stored-Value Products* (“ASU 2016-04”). ASU 2016-04 entitles a company to derecognize amounts related to expected breakage to the extent that it is probable a significant reversal of the recognized breakage amount will not subsequently occur. ASU 2016-04 is effective for annual periods, and interim periods within those years, beginning after December 15, 2017. Early adoption is permitted. The Company is still evaluating the effect of adopting ASU 2016-04.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842): Amendments to the FASB Accounting Standards Codification®* (“ASU 2016-02”), which supersedes the existing guidance for lease accounting, *Leases (Topic 840)*. ASU 2016-02 requires lessees to recognize leases on their balance sheets, and modifies accounting, presentation and disclosure for

both lessors and lessees. ASU 2016-02 requires a modified retrospective approach for all leases existing at, or entered into after, the date of initial application, with an option to elect to use certain transition relief. ASU 2016-02 is effective for annual periods, and interim periods within those years, beginning after December 15, 2018. Early adoption is permitted. The Company is still evaluating the effect of adopting ASU 2016-02.

In July 2015, the FASB issued ASU 2015-11, *Inventory (Topic 330): Simplifying the Measurement of Inventory* (“ASU 2015-11”). ASU 2015-11 affects reporting entities that measure inventory using first-in, first-out or average cost. Specifically, ASU 2015-11 requires that inventory be measured at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. ASU 2015-11 is effective for annual periods beginning after December 15, 2016, with early adoption permitted. This standard will not have a material impact on the Company’s consolidated results of operations or financial position.

In August 2014, the FASB issued ASU 2014-15, *Presentation of Financial Statements-Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern* (“ASU 2014-15”), to provide guidance on management’s responsibility to perform interim and annual assessments of an entity’s ability to continue as a going concern and to provide related disclosure. ASU 2014-15 applies to all entities and is effective for annual periods ending after December 15, 2016, and interim periods thereafter, with early adoption permitted. This standard will not have a material impact on the Company’s consolidated results of operations or financial position.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)* (“ASU 2014-09”). ASU 2014-09 affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets, unless those contracts are within the scope of other standards (for example, insurance contracts or lease contracts). The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In August 2015, the FASB issued ASU 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date* (“ASU 2015-14”), deferring the effective date of ASU 2014-09. The new revenue standard is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017 and allows either a full retrospective adoption to all periods presented or a modified retrospective adoption approach with the cumulative effect of initial application of the revised guidance recognized at the date of initial application. In March 2016, the FASB issued ASU 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)* (“ASU 2016-08”). ASU 2016-08 is intended to improve the operability and understandability of the implementation guidance on principal versus agent considerations. In April 2016, the FASB issued ASU 2016-10, *Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing* (“ASU 2016-10”). ASU 2016-10 clarifies the implementation guidance on identifying performance obligations. Early adoption is permitted for periods beginning after December 15, 2016. In May 2016, the FASB issued ASU 2016-12, *Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients* (“ASU 2016-12”). ASU 2016-12 clarifies three aspects of Topic 606, including the objective of the collectability criterion, the measurement date for noncash consideration and the requirements for a completed contract. ASU 2016-12 also includes a practical expedient for contract modifications. Additionally, the amendments allow an entity to exclude all sales taxes collected from customers from the transaction price. The Company is evaluating the effect of adopting ASU 2014-09 and related ASUs.

Recently Adopted Accounting Standards. In accordance with U.S. GAAP, the following provisions, which had no material impact on the Company’s financial position, results of operations or cash flows, were adopted effective the first quarter of fiscal year 2016:

- ASU 2015-02, *Consolidation (Topic 810): Amendments to the Consolidation Analysis*
- ASU 2014-12, *Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period*

2. ACQUISITIONS AND GOODWILL

Fossil Spain Acquisition. On August 10, 2012, the Company’s joint venture company, Fossil, S.L. (“Fossil Spain”), entered into a Framework Agreement (the “Framework Agreement”) with several related and unrelated parties, including General De Relojeria, S.A. (“General De Relojeria”), the Company’s joint venture partner. Pursuant to the Framework Agreement, Fossil Spain was granted the right to acquire the outstanding 50% of its shares owned by General De Relojeria upon the expiration of the joint venture agreement on December 31, 2015. The Company completed the acquisition of these shares in the Second Quarter, at which time Fossil Spain became a wholly-owned subsidiary of the Company. The fixed and previously remaining variable components of the purchase price were settled in the amounts of 4.3 million euros

(approximately \$4.8 million) and 3.5 million euros (approximately \$3.9 million), respectively. As of January 1, 2013, pursuant to the Framework Agreement, the Company assumed control over the board of directors and the day-to-day management of Fossil Spain, and began consolidating Fossil Spain, instead of treating it as an equity method investment.

Misfit, Inc. Acquisition. On December 22, 2015, the Company acquired Misfit, Inc. ("Misfit"), an innovator and distributor of wearable technology and stylish connected devices. Misfit was a U.S.-based, privately held company. The primary purpose of the acquisition was to acquire a scalable technology platform that can be integrated across the Company's multi-brand portfolio, a native wearable technology brand and a pipeline of innovative products. Misfit's position in the wearable technology space combined with their software and hardware engineering teams enables the Company to expand its addressable market with new distribution channels, products, brands and enterprise partnerships.

The purchase price was \$215.4 million in cash, net of cash acquired and subject to working capital adjustments, and \$1.7 million in replacement awards attributable to precombination service. At closing, \$12.5 million of the cash payment was placed into an escrow fund for the Company for working capital adjustments and indemnification obligations of the seller incurred within 12 months from the closing date. The Company received \$0.8 million from the escrow during the Second Quarter as a working capital settlement and has recorded a receivable for additional claims incurred. To fund the cash purchase price, the Company utilized cash on hand and approximately \$60 million of availability under its \$1.05 billion revolving line of credit. The results of Misfit's operations have been included in the Company's consolidated financial statements since December 22, 2015.

Assets acquired and liabilities assumed in the transaction were recorded at their acquisition date fair values, while transaction costs of \$8.4 million associated with the acquisition were expensed as incurred during the fourth quarter of fiscal year 2015. Because the total purchase price exceeded the fair values of the tangible and intangible assets acquired, goodwill was recorded equal to the difference. The element of goodwill that is not separable into identifiable intangible assets represents expected synergies. The following table summarizes the allocation of the purchase price to the preliminary estimated fair value of the assets acquired and the liabilities assumed as of December 22, 2015, the effective date of the acquisition (in thousands):

Cash paid, net of cash acquired	\$	215,370
Replacement awards attributable to precombination service		1,709
Working capital and other adjustments		(3,788)
Total transaction consideration	\$	213,291
Inventories	\$	7,011
Prepaid expenses and other current assets		25
Property, plant and equipment and other long-term assets		1,190
Goodwill		168,021
Amortizing Intangibles:	Useful Lives	
Trade name	6 yrs.	15,700
Customer lists	5 yrs.	10,800

Noncompete agreements	3 yrs.	700
Current liabilities		(17,019)
Long-term liabilities		(9,237)
Total net assets acquired	\$	213,291

The amounts shown above may change in the near term as management continues to assess the fair value of acquired assets and liabilities. A change in this valuation may also impact the income tax related accounts and goodwill. The goodwill recognized from the acquisition has an indefinite useful life and will be included in the Company's annual impairment testing.

Goodwill. The changes in the carrying amount of goodwill were as follows (in thousands):

(1) All goodwill resulting from the Misfit acquisition was recorded in the Americas segment as of January 2, 2016, on a preliminary basis. This line item includes an allocation of the goodwill across reporting segments and also purchase accounting adjustments made during the Year To Date Period to accounts receivable, inventories, current and long-term liabilities and working capital and other adjustments made to the transaction consideration.

3. INVENTORIES

Inventories consisted of the following (in thousands):

	July 2, 2016	January 2, 2016

4. WARRANTY LIABILITIES

The Company's warranty liability is recorded in accrued expenses-other in the Company's condensed consolidated balance sheets. Warranty liability activity consisted of the following (in thousands):

	For the 26 Weeks Ended July 2, 2016	For the 26 Weeks Ended July 4, 2015
Beginning balance	\$ 13,669	\$ 13,500

Ending balance	<u>\$ 13,735</u>	<u>\$ 13,563</u>

(1) Changes in cost estimates related to preexisting warranties are aggregated with accruals for new standard warranties issued and foreign currency changes.

5. INCOME TAXES

The Company's income tax expense and related effective rates were as follows (in thousands, except percentage data):

	For the 13 Weeks Ended July 2, 2016	For the 13 Weeks Ended July 4, 2015	For the 26 Weeks Ended July 2, 2016	For the 26 Weeks Ended July 4, 2015
Income tax expense	\$ 3,499	\$ 22,894	\$ 6,778	\$ 41,417
Income tax rate	30.2%	28.7%	30.5%	29.8%

The higher effective tax rates in the Second Quarter and the Year To Date Period, as compared to the Prior Year Quarter and Prior Year YTD Period, respectively, was primarily attributable to the recognition of income tax benefits due to the settlement of audits in the Prior Year Quarter. The impact of this discrete benefit is partially offset by a lower projected

effective tax rate for 2016 as compared to 2015, largely due to the projected shift in earnings mix towards foreign income which is taxed at lower statutory rates.

As of July 2, 2016, the total amount of unrecognized tax benefits, excluding interest and penalties, was \$22.6 million, of which \$19.4 million would favorably impact the effective tax rate in future periods, if recognized. The Company is subject to examinations in various state and foreign jurisdictions for its 2009-2015 tax years, none of which the Company believes are significant, individually or in the aggregate. Tax audit outcomes and timing of tax audit settlements are subject to significant uncertainty.

The Company has classified uncertain tax positions as long-term income taxes payable, unless such amounts are expected to be paid within twelve months of the condensed consolidated balance sheet date. As of July 2, 2016, the Company had recorded \$0.9 million of unrecognized tax benefits, excluding interest and penalties, for positions that are expected to be settled within the next twelve months. Consistent with its past practice, the Company recognizes interest and/or penalties related to income tax overpayments and income tax underpayments in income tax expense and income taxes receivable/payable. At July 2, 2016, the total amount of accrued income tax-related interest and penalties included in the condensed consolidated balance sheet was \$2.6 million and \$1.8 million, respectively. For the Second Quarter and Year To Date Period, the Company accrued income tax-related interest expense of \$0.2 million and \$0.4 million, respectively.

6. STOCKHOLDERS' EQUITY

Common Stock Repurchase Programs. Purchases of the Company's common stock are made from time to time pursuant to its repurchase programs, subject to market conditions and at prevailing market prices, through the open market. Repurchased shares of common stock are recorded at cost and become authorized but unissued shares which may be issued in the future for general corporate or other purposes. The Company may terminate or limit its stock repurchase program at any time. In the event the repurchased shares are canceled, the Company accounts for retirements by allocating the repurchase price to common stock, additional paid-in capital and retained earnings. The repurchase price allocation is based upon the equity contribution associated with historical issuances. The repurchase programs are conducted pursuant to Rule 10b-18 of the Exchange Act.

During the Year to Date period, the Company effectively retired 0.1 million shares of common stock repurchased under its repurchase programs. The effective retirement of repurchased common stock decreased common stock by \$1,100, additional paid-in capital by \$0.2 million, retained earnings by \$5.0 million and treasury stock by \$5.2 million. At January 2, 2016 and July 2, 2016, all treasury stock had been effectively retired. As of July 2, 2016, the Company had \$824.2 million of repurchase authorizations remaining under its combined repurchase programs.

The following tables reflect the Company's common stock repurchase activity for the periods indicated (in millions):

9. SEGMENT INFORMATION

The Company reports segment information based on the “management approach”. The management approach designates the internal reporting used by management for making decisions and assessing performance as the source of the Company’s reportable segments.

The Company manages its business primarily on a geographic basis. The Company’s reportable operating segments are comprised of (i) Americas, (ii) Europe and (iii) Asia. Each reportable operating segment includes sales to wholesale and distributor customers, and sales through Company-owned retail stores and e-commerce activities based on the location of the selling entity. The Americas segment primarily includes sales to customers based in Canada, Latin America and the United States. The Europe segment primarily includes sales to customers based in European countries, the Middle East and Africa. The Asia segment primarily includes sales to customers based in Australia, China, India, Indonesia, Japan, Malaysia, New Zealand, Singapore, South Korea, Taiwan and Thailand. Each reportable operating segment provides similar products and services.

The Company evaluates the performance of its reportable segments based on net sales and operating income. Net sales for geographic segments are based on the location of the selling entity. Operating income for each segment includes net sales to third parties, related cost of sales and operating expenses directly attributable to the segment. Global strategic initiatives such as brand building and omni channel activities and general corporate expenses, including certain administrative, legal, accounting, technology support costs, equity compensation costs, payroll costs attributable to executive management, brand management, product development, art, creative/product design, marketing, strategy, compliance and back office supply chain expenses are not allocated to the various segments because they are managed at the corporate level internally. The Company does not include intercompany transfers between segments for management reporting purposes.

Summary information by operating segment was as follows (in thousands):

10. DERIVATIVES AND RISK MANAGEMENT

Cash Flow Hedges. The primary risks managed by using derivative instruments are the fluctuations in global currencies that will ultimately be used by non-U.S. dollar functional currency subsidiaries to settle future payments of intercompany inventory transactions denominated in U.S. dollars. Specifically, the Company projects future intercompany purchases by its non-U.S. dollar functional currency subsidiaries generally over a period of up to 24 months. The Company enters into forward contracts, generally for up to 85% of the forecasted purchases, to manage fluctuations in global currencies that will ultimately be used to settle such U.S. dollar denominated inventory purchases. Additionally, during the first quarter of fiscal year 2016, the Company entered into forward contracts to manage fluctuations in Japanese yen exchange rates that will be used to settle future third-party inventory component purchases by a U.S. dollar functional currency subsidiary. Forward contracts represent agreements to exchange the currency of one country for the currency of another country at an agreed-upon settlement date and exchange rate. These forward contracts are designated as single cash flow hedges. Fluctuations in exchange rates will either increase or decrease the Company's U.S. dollar equivalent cash flows from these inventory transactions, which will affect the Company's U.S. dollar earnings. Gains or losses on the forward contracts are expected to offset these fluctuations to the extent the cash flows are hedged by the forward contracts.

These forward contracts meet the criteria for hedge accounting, which requires that they represent foreign currency-denominated forecasted transactions in which (i) the operating unit that has the foreign currency exposure is a party to the hedging instrument and (ii) the hedged transaction is denominated in a currency other than the hedging unit's functional currency.

At the inception of each forward contract designated as a cash flow hedge, the hedging relationship is expected to be highly effective in achieving offsetting cash flows attributable to the hedged risk. The Company assesses hedge effectiveness under the critical terms matched method at inception and at least quarterly throughout the life of the hedging relationship. If the critical terms (i.e., amounts, currencies and settlement dates) of the forward contract match the terms of the forecasted transaction, the Company concludes that the hedge is effective.

For a derivative instrument that is designated and qualifies as a cash flow hedge, the effective portion of the gain or loss on the derivative is reported as a component of other comprehensive income (loss), net of taxes and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Gains and losses on the derivative representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings. Due to the high degree of effectiveness between the hedging instruments and the underlying exposures being hedged, the Company's hedges resulted in no ineffectiveness in the condensed consolidated statements of income and comprehensive income, and there were no components excluded from the assessment of hedge effectiveness for the Second Quarter, Prior Year Quarter, Year To Date Period or Prior Year YTD Period.

All derivative instruments are recognized as either assets or liabilities at fair value in the condensed consolidated balance sheets. Derivatives designated as cash flow hedges are recorded at fair value at each balance sheet date and the change in fair value is recorded to accumulated other comprehensive income (loss) within the equity section of the Company's condensed consolidated balance sheet until such derivative's gains or losses become realized or the cash flow hedge relationship is terminated. If the cash flow hedge relationship is terminated, the derivative's gains or losses that are recorded in accumulated other comprehensive income (loss) will be recognized in earnings when the hedged cash flows occur. However, for cash flow hedges that are terminated because the forecasted transaction is not expected to occur in the original specified time period, the derivative's gains or losses are immediately recognized in earnings. There were no gains or losses reclassified into earnings as a result of the discontinuance of cash flow hedges in the Second Quarter, Prior Year Quarter, Year To Date Period or Prior Year YTD Period. Hedge accounting is discontinued if it is determined that the derivative is not highly effective. The Company records all forward contract hedge assets and liabilities on a gross basis as they do not meet the balance sheet netting criteria because the Company does not have master netting agreements established with the derivative counterparties that would allow for net settlement.

As of July 2, 2016, the Company had the following outstanding forward contracts designated as cash flow hedges that were entered into to hedge the future payments of inventory transactions (in millions):

Functional Currency		Contract Currency	
Type	Amount	Type	Amount
Euro	255.1	U.S. dollar	288.3
British pound	52.9	U.S. dollar	79.0
Canadian dollar	80.5	U.S. dollar	61.0
Japanese yen	4,077.9	U.S. dollar	35.7
Mexican peso	335.4	U.S. dollar	18.3
Australian dollar	20.0	U.S. dollar	14.6
U.S. dollar	28.0	Japanese yen	3,013.0

The Company is also exposed to interest rate risk related to its outstanding debt. To manage the interest rate risk related to its \$231.3 million U.S.-based term loan (as amended and restated on March 9, 2015, the "Term Loan"), the Company entered into an interest rate swap agreement on July 26, 2013 with a term of approximately five years. The objective of this hedge is to offset the variability of future payments associated with interest rates on the Term Loan. The interest rate swap agreement hedges the 1-month London Interbank Offer Rate ("LIBOR") based variable rate debt obligations under the Term Loan. Under the terms of the swap, the Company pays a fixed interest rate of 1.288% per annum to the swap counterparty plus the LIBOR rate applicable margin (which varies based upon the Company's consolidated leverage ratio (the "Ratio") from 1.25% if the Ratio is less than 1.00 to 1.00, to 2.00% if the Ratio is greater than or equal to 2.00 to 1.00). The notional amount amortizes over the remaining life of the Term Loan to coincide with repayments on the underlying loan. The Company receives interest from the swap counterparty at a variable rate based on 1-month LIBOR. This hedge is designated as a cash flow hedge.

Net Investment Hedges. The Company is also exposed to risk that adverse changes in foreign currency exchange rates could impact its net investment in foreign operations. During the first quarter of fiscal year 2016, the Company entered into a forward contract designated as a net investment hedge to reduce exposure to changes in currency exchange rates on 45.0 million euros of its total investment in a wholly-owned, euro-denominated foreign subsidiary. The hedge was settled during the Second Quarter resulting in a net gain of \$0.5 million net of taxes that was recognized in the currency translation component of accumulated other comprehensive income (loss).

The effective portion of derivatives designated as net investment hedges are recorded at fair value at each balance sheet date and the change in fair value is recorded in the cumulative translation adjustment component of other comprehensive income (loss) in the Company's condensed consolidated statements of income and comprehensive income. The Company uses the hypothetical derivative method to assess the ineffectiveness of net investment hedges. Should any portion of a net investment hedge become ineffective, the ineffective portion will be reclassified to other income (expense)-net on the Company's condensed consolidated statements of income and comprehensive income. Gains and losses reported in accumulated other comprehensive income (loss) will not be reclassified into earnings until the Company's underlying investment is liquidated or dissolved.

Non-designated Hedges. The Company also periodically enters into forward contracts to manage exchange rate risks associated with certain intercompany transactions and for which the Company does not elect hedge accounting treatment. As of July 2, 2016, the Company had non-designated forward contracts of approximately \$1.4 million on 21.6 million rand associated with a South African rand-denominated foreign subsidiary. Changes in the fair value of derivatives, not designated as hedging instruments, are recognized in earnings when they occur.

The effective portion of gains and losses on cash flow hedges that were recognized in other comprehensive income (loss), net of taxes during the Second Quarter, Prior Year Quarter, Year To Date Period and Prior Year YTD Period are set forth below (in thousands):

At the end of the Second Quarter, the Company had forward contracts designated as cash flow hedges with maturities extending through June 2018. As of July 2, 2016, an estimated net gain of \$3.3 million is expected to be reclassified into earnings within the next twelve months at prevailing foreign currency exchange rates. See "Note 1—Financial Statement Policies" for additional disclosures on foreign currency hedging instruments.

11. FAIR VALUE MEASUREMENTS

The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date.

Accounting Standards Codification ("ASC") 820, *Fair Value Measurement and Disclosures* ("ASC 820"), establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair value into three broad levels as follows:

- Level 1 — Quoted prices in active markets for identical assets or liabilities.
- Level 2 — Inputs, other than quoted prices in active markets, that are observable either directly or indirectly.
- Level 3 — Unobservable inputs based on the Company's assumptions.

ASC 820 requires the use of observable market data if such data is available without undue cost and effort.

The following table presents the fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of July 2, 2016 (in thousands):

	Fair Value at July 2, 2016			
	Level 1	Level 2	Level 3	Total
Assets:

Interest rate swap	—	2,553	—	2,553
Total	<u>\$ —</u>	<u>\$ 10,647</u>	<u>\$ —</u>	<u>\$ 10,647</u>

The following table presents the fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of January 2, 2016 (in thousands):

	Fair Value at January 2, 2016			
	Level 1	Level 2	Level 3	Total
Assets:

Interest rate swap	—	1,401	—	1,401
Total	\$ —	\$ 2,199	\$ 3,643	\$ 5,842

The fair values of the Company's deferred compensation plan assets are based on quoted prices. The deferred compensation plan assets are recorded in intangible and other assets-net in the Company's condensed consolidated balance sheets. The fair values of the Company's forward contracts are based on published quotations of spot currency rates and forward points, which are converted into implied forward currency rates. The fair values of the interest rate swap assets and liabilities are determined using valuation models based on market observable inputs, including forward curves, mid-market price and volatility levels. See "Note 10—Derivatives and Risk Management" for additional disclosures about the interest rate swaps and forward contracts.

The Company has evaluated its short-term and long-term debt as of July 2, 2016 and January 2, 2016 and believes, based on the interest rates, related terms and maturities, that the fair values of such instruments approximated their carrying amounts. As of July 2, 2016 and January 2, 2016, the carrying values of cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities approximated their fair values due to the short-term maturities of these accounts.

Key money is the amount of funds paid to a landlord or tenant to acquire the rights of tenancy under a commercial property lease for a certain property. Key money represents the “right to lease” with an automatic right of renewal. This right can be subsequently sold by the Company or can be recovered should the landlord refuse to allow the automatic right of renewal to be exercised. Key money is amortized over the initial lease term, which ranges from approximately four to 18 years.

Amortization expense for intangible assets was approximately \$3.8 million and \$1.4 million for the Second Quarter and Prior Year Quarter, respectively, and \$7.5 million and \$2.5 million for the Year To Date Period and Prior Year YTD Period, respectively. Estimated aggregate future amortization expense by fiscal year for intangible assets is as follows (in thousands):

Fiscal Year	Amortization Expense
2016 (remaining)	\$ 7,487
2017	\$ 14,721
2018	\$ 14,366
2019	\$ 14,037
2020	\$ 13,528
2021	\$ 9,703

13. COMMITMENTS AND CONTINGENCIES

Litigation. The Company is occasionally subject to litigation or other legal proceedings in the normal course of its business. The Company does not believe that the outcome of any currently pending legal matters, individually or collectively, will have a material effect on the business or financial condition of the Company.

14. DEBT ACTIVITY

The Company made principal payments of \$4.7 million and \$9.4 million under its Term Loan during the Second Quarter and Year To Date Period, respectively. The Company also made net payments of \$83.6 million and \$64.0 million under its U.S. revolving line of credit (the "Revolving Credit Facility") during the Second Quarter and Year To Date Period, respectively. Borrowings were primarily used to fund capital expenditures, normal operating expenses and stock repurchases and were more than offset by payments on debt. Amounts available under the Revolving Credit Facility are reduced by any amounts outstanding under standby letters of credit. As of July 2, 2016, the Company had available borrowing capacity of approximately \$133.0 million under the Revolving Credit Facility, which was favorably impacted by a \$215.5 million international cash balance. The Company incurred approximately \$1.6 million and \$3.2 million of interest expense related to the Term Loan during the Second Quarter and Year To Date Period, respectively, including the impact of the related interest rate swap. The Company incurred approximately \$4.2 million and \$7.9 million of interest expense related to the Revolving Credit Facility during the Second Quarter and Year To Date Period, respectively.

15. SUBSEQUENT EVENT

Credit Agreement. On August 8, 2016, the Company entered into a First Amendment to the Amended and Restated Credit Agreement (the "First Amendment"). The First Amendment adds two new levels to the applicable margin pricing grid used to calculate the interest rate that is applicable to base rate loans and LIBOR rate loans under the Revolving Credit Facility and increases the applicable margin at each pricing level for LIBOR rate loans and base rate loans by 25 basis points. Additionally, the First Amendment provides for the net cash proceeds from certain debt issuances by the Company in excess of \$25.0 million to be applied, first, to prepay the Term Loan and, for the excess, if any, to prepay the Revolving Credit Facility with a corresponding reduction in the revolving credit commitment by the amount of such excess proceeds. The First Amendment also changes the consolidated total leverage ratio that the Company must comply with for fiscal quarters ending on or after June 30, 2016 from 2.50:1.00 to 3.25:1.00.

In connection with the First Amendment, the Company and certain of its material domestic subsidiaries entered into a Collateral Agreement in favor of Wells Fargo Bank, National Association, as administrative agent, pursuant to which the Company and such subsidiaries granted liens on all or substantially all of their assets in order to secure the Company's obligations under the Revolving Credit Facility and the other loan documents (the "Obligations"). Additionally, certain of the Company's domestic subsidiaries entered into a guaranty agreement in favor of Wells Fargo Bank, National Association, as administrative agent, pursuant to which such subsidiaries guarantee the payment and performance of the Obligations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following is a discussion of the financial condition and results of operations of Fossil Group, Inc. and its subsidiaries for the thirteen and twenty-six week periods ended July 2, 2016 (the "Second Quarter" and "Year To Date Period," respectively) as compared to the thirteen and twenty-six week periods ended July 4, 2015 (the "Prior Year Quarter" and "Prior Year YTD Period," respectively). This discussion should be read in conjunction with the condensed consolidated financial statements and the related notes thereto.

General

We are a global design, marketing and distribution company that specializes in consumer fashion accessories. Our principal offerings include an extensive line of men's and women's fashion watches and jewelry, handbags, small leather goods, belts and sunglasses. In the watch and jewelry product categories, we have a diverse portfolio of globally recognized owned and licensed brand names under which our products are marketed. Our products are distributed globally through various distribution channels, including wholesale in countries where we have a physical presence, direct to the consumer through our retail stores and commercial websites and through third party distributors in countries where we do not maintain a physical presence. Our products are offered at varying price points to meet the needs of our customers, whether they are value conscious or luxury oriented. Based on our extensive range of accessory products, brands, distribution channels and price points, we are able to target style conscious consumers across a wide age spectrum on a global basis.

Domestically, we sell our products through a diversified distribution network that includes department stores, specialty retail locations, specialty watch and jewelry stores, Company-owned retail and outlet stores, mass market stores and through our FOSSIL® website. Our wholesale customer base includes, among others, Amazon.com, Dillard's, JCPenney, Kohl's, Macy's, Neiman Marcus, Nordstrom, Saks Fifth Avenue, Target and Wal-Mart. In the United States, our network of Company-owned stores included 97 retail stores located in premier retail sites and 141 outlet stores located in major outlet malls as of July 2, 2016. In addition, we offer an extensive collection of our FOSSIL brand products on our website, www.fossil.com, as well as proprietary and licensed watch and jewelry brands through other managed and affiliated websites.

Internationally, our products are sold to department stores, specialty retail stores and specialty watch and jewelry stores in approximately 150 countries worldwide through 23 Company-owned foreign sales subsidiaries and through a network of approximately 80 independent distributors. Internationally, our network of Company-owned stores included 245 retail stores and 132 outlet stores as of July 2, 2016. Our products are also sold through licensed and franchised FOSSIL retail stores, retail concessions operated by us and kiosks in certain international markets. In addition, we offer an extensive collection of our FOSSIL brand products on our websites in certain countries.

Our business is subject to economic cycles and retail industry conditions. Purchases of discretionary fashion accessories, such as our watches, handbags, sunglasses and other products, tend to decline during recessionary periods when disposable income is low and consumers are hesitant to use available credit. In addition, acts of terrorism, acts of war and military action both in the U.S. and abroad can have a significant effect on economic conditions and may negatively affect our ability to procure our products from manufacturers for sale to our customers. Any significant declines in general economic conditions, public safety concerns or uncertainties regarding future economic prospects that affect consumer spending habits could have a material adverse effect on consumer purchases of our products.

Our business is also subject to the risks inherent in global sourcing supply. Certain key components in our products come from limited sources of supply, which exposes us to potential supply shortages that could disrupt the manufacture and sale of our products. Any interruption or delay in the supply of key components could significantly harm our ability to meet scheduled product deliveries to our customers and cause us to lose sales. Interruptions or delays in supply may be caused by a number of factors that are outside of our and our contract manufacturers' control.

Future sales and earnings growth are also contingent upon our ability to anticipate and respond to changing fashion trends and consumer preferences in a timely manner while continuing to develop innovative products in the respective markets in which we compete. As is typical with new products, market acceptance of new designs and products that we may introduce is subject to uncertainty. In addition, we generally make decisions regarding product designs several months in advance of the time when consumer acceptance can be measured. We believe our historical sales growth is the result of our ability to design innovative watch products that not only differentiate us from our competition but also continue to provide a solid value proposition to consumers across all of our brands.

The majority of our products are sold at retail price points ranging from \$85 to \$600. We believe that the price/value relationship and the differentiation and innovation of our products, in comparison to those of our competitors, will allow us to maintain or grow our market share in those markets in which we compete. Historically, during recessionary periods, the strength of our balance sheet, our strong operating cash flow and the relative size of our business with our wholesale customers,

in comparison to that of our competitors, have allowed us to weather recessionary periods for longer periods of time and generally resulted in market share gains to us.

Our international operations are subject to many risks, including foreign currency fluctuations and risks related to the global economy. Generally, a strengthening of the U.S. dollar against currencies of other countries in which we operate will reduce the translated amounts of sales and operating expenses of our subsidiaries, which results in a reduction of our consolidated operating income. We manage these currency risks by using derivative instruments. The primary risks managed by using derivative instruments are the future payments by non-U.S. dollar functional currency subsidiaries of intercompany inventory transactions denominated in U.S. dollars. We enter into foreign exchange forward contracts ("forward contracts") to manage fluctuations in global currencies that will ultimately be used to settle such U.S. dollar denominated inventory purchases. We are also exposed to interest rate risk associated with our variable rate debt, which we manage with an interest rate swap.

For a more complete discussion of the risks facing our business, see "Part I, Item 1A. Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended January 2, 2016.

Results of Operations

Executive Summary. During the Second Quarter, net sales decreased 7% (6% in constant currency), as compared to the Prior Year Quarter. As expected, Second Quarter net sales trailed the Prior Year Quarter; however, during the Second Quarter our sales trends, though still challenging, remained relatively stable. Within the Americas region the wholesale channel proved to be the largest driver of the sales decline in the Second Quarter as the U.S. department stores' business continued to appear soft. Additionally, we experienced a modest decline in sell-through in some markets within the Europe region as compared to the Prior Year Quarter. Although weakness in the traditional watch category continued during the Second Quarter, several areas of our business performed well. We believe these areas of the business are positive indicators that we have the appropriate long-term strategies in place and reinforce our commitment to investing in these strategies to drive future growth.

FOSSIL and SKAGEN® brands both grew during the Second Quarter as compared to the Prior Year Quarter and our leathers assortment, particularly women's handbags, continued to drive positive results. Although our wearables products represent only a small portion of our total business, they continue to resonate with customers. As previously announced, we will be launching connected accessories across more of the brands in our portfolio later this year and are on track to deliver product beginning in the third quarter. The investments we have made in our omni-channel capabilities, including the re-launching of our branded websites, also continue to benefit the business. As consumer shopping patterns and preferences continue to evolve, as recently reflected in the weaker wholesale trends, we are continuing to invest in our digital and omni-channel capabilities and our Customer Relationship Management ("CRM") initiatives. We believe these investments will further enhance our interactions with customers and drive future growth.

FOSSIL branded products increased 1% (2% in constant currency) in the Second Quarter as compared to the Prior Year Quarter, including growth in Asia and Europe and continued strength in women's leathers, a category that is resonating with consumers as we continue to improve the assortment by adding new designs and features. Growth in our FOSSIL branded leathers category was partially offset by a decline in jewelry, while watches were flat (increased slightly in constant currency). During the Second Quarter, our SKAGEN branded products increased 8% (7% in constant currency) as compared to the Prior Year Quarter, representing growth across all major product categories led by watches. Increases in SKAGEN branded sales in Europe and Asia offset declines in the Americas. We believe our owned brands have continued to benefit from our CRM initiatives and our store experiences that drive customer engagement and create a deeper emotional connection to the brands.

Our multi-brand global watch portfolio decreased 10% (9% in constant currency) during the Second Quarter as compared to the Prior Year Quarter. The wholesale channel continued to be the most challenging as the traditional watch category continued to be pressured from the growing technology enabled accessories market and an overall weaker demand for traditional watches. While we continued to benefit from the addition of newer brands to the portfolio including KATE SPADE NEW YORK® and TORY BURCH®, both of which are now fully benefiting from our competitive and strategic advantages of design, product development and global distribution, the majority of the brands in the portfolio declined in the Second Quarter as compared to the Prior Year Quarter. While we are in the early stages of launching connected accessories, with the larger launch across more of our brands in the back half of the year, we continue to believe that our competitive and strategic advantages of creativity, scale, and our portfolio of brands, combined with our technology platform, put us in position to disrupt the watch market as the line blurs between traditional watches and connected accessories.

Global comparable store sales decreased 3% during the Second Quarter as positive comparable store sales in Asia were offset by declines in the Americas and Europe. Globally, our full price retail stores delivered positive comparable store sales with the Fossil Q continuing to sell well and drive traffic to our stores combined with our women's handbags also performing very well. Our outlet stores remain more challenging as our promotions have not offset the traffic headwinds.

During the Second Quarter as compared to the Prior Year Quarter, gross profit decreased primarily driven by lower sales given the challenging retail environment and pressure on the traditional watch category. The gross margin rate also declined, largely as a result of increased off-price sales as we managed our inventory levels and increased promotional activity to drive our outlet business. Additionally, the gross margin rate included an unfavorable currency impact of approximately 90 basis points. Operating expenses for the Second Quarter were in line with the Prior Year Quarter, as the non-recurrence of prior year restructuring charges and a reduction in store expenses were offset by increased expenses associated with wearables and strategic omni-channel investments. Additionally, other income decreased as we had fewer gains on foreign currency contracts during the Second Quarter as compared to the Prior Year Quarter, along with the non-recurrence of an interest rate hedge settlement which benefited the Prior Year Quarter. During the Second Quarter, our financial performance, including the unfavorable impacts of currencies, resulted in earnings of \$0.12 per diluted share.

Quarterly Periods Ended July 2, 2016 and July 4, 2015

Consolidated Net Sales. Net sales decreased \$54.6 million or 7.4% (6% in constant currency), for the Second Quarter as compared to the Prior Year Quarter. Global watch sales decreased \$58.2 million or 10.1% (9% in constant currency), while our leathers products increased \$3.8 million or 4.3% (6% in constant currency) driven by increases in FOSSIL. During the Second Quarter, our jewelry business increased \$1.0 million or 1.8% (2% in constant currency).

Net sales information by product category is summarized as follows (dollars in millions):

As a multinational enterprise, we are exposed to changes in foreign currency exchange rates. The translation of the operations of our foreign-based entities from their local currencies into U.S. dollars is sensitive to changes in foreign currency exchange rates. In general, our overall financial results are affected positively by a weaker U.S. dollar and are affected negatively by a stronger U.S. dollar as compared to the foreign currencies in which we conduct our business. We present constant currency information because we believe that such information is useful to certain investors as a measure of our results of operations year-over-year without the effects of foreign currency fluctuations. To calculate net sales on a constant currency basis, net sales for the current year for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average rates during the prior year.

In the Second Quarter, the translation of foreign-based net sales into U.S. dollars decreased reported net sales by approximately \$6.8 million, including unfavorable impacts of \$3.6 million, \$2.2 million and \$1.0 million in our Americas, Asia and Europe segments, respectively, when compared to the Prior Year Quarter.

The following table sets forth consolidated net sales by segment (dollars in millions):

Americas Net Sales. Americas net sales decreased \$40.9 million or 10.6% (10% in constant currency), driven by watches with jewelry and leathers also contributing to the decline during the Second Quarter in comparison to the Prior Year Quarter. During the Second Quarter, our multi-brand watch portfolio decreased \$38.0 million or 12.8% (12% in constant currency),

while our leathers business decreased \$1.5 million or 2.6% (2% in constant currency) and our jewelry category decreased \$0.8 million or 3.7% (3% in constant currency). During the Second Quarter, across brands both KATE SPADE NEW YORK and TORY BURCH delivered solid increases that were offset by declines in nearly all of the other brands in the portfolio. During the Second Quarter, though sales trends were relatively stable and generally consistent with the first quarter of fiscal year 2016, the wholesale channel proved to be the largest driver of the sales decline in the Americas region as the U.S. department stores' business continued to appear soft. Within the region, our full-price accessory stores performed relatively well driven by strong performances in women's handbags and wearables during the Second Quarter as compared to the Prior Year Quarter. Modest growth in our retail stores in Canada was offset by a decline in the U.S.

Europe Net Sales. Europe net sales decreased \$12.0 million or 5.3% (5% in constant currency), led by a decline in watches and jewelry partially offset by an increase in leathers during the Second Quarter in comparison to the Prior Year Quarter. Our multi-brand watch portfolio decreased \$12.8 million or 7.5% (7% in constant currency), while our jewelry category decreased \$0.1 million or 0.4% (1% in constant currency) and our leathers business increased \$2.0 million or 12.3% (13% in constant currency) in the Second Quarter. Within the region, growth in SKAGEN and FOSSIL was offset by a decline in nearly all of the brands in the licensed portfolio. By country, modest growth in France and Germany was offset by a decline in the United Kingdom and in our distributor markets, which include the Middle East and Russia, and we experienced a modest decline in sell-through in some markets. The retail channel delivered growth during the Second Quarter, including positive comparable store sales in our full-price stores, despite a slight decline in the overall comparable store performance for the region.

Asia Net Sales. Net sales in Asia decreased \$1.7 million or 1.3% (flat in constant currency). The decrease was driven by watches, partially offset by modest growth in leathers and jewelry. Constant currency growth in India, Malaysia, Singapore, Australia and China was offset by declines in Japan, Macau and Hong Kong. During the Second Quarter as compared to the Prior Year Quarter, our watch category decreased \$7.4 million or 6.9% (5% in constant currency), partially offset by increases in leathers of \$3.3 million or 24.9% (29% in constant currency) and increases in jewelry of \$1.9 million or 106.5% (109% in constant currency). Growth in FOSSIL and SKAGEN was offset by declines in nearly all of the other brands in the portfolio. Comparable store sales in the region increased modestly in both our owned full-price and outlet stores.

The following table sets forth the number of stores by concept on the dates indicated below:

	July 2, 2016				July 4, 2015			
	Americas	Europe	Asia	Total	Americas	Europe	Asia	Total
Full price accessory	126	124	69	319	138	126	63	327
Outlets	155	73	45	273	145	66	42	253
Full priced multi-brand	—	7	16	23	1	5	22	28
Total stores	281	204	130	615	284	197	127	608

During the Second Quarter, we opened nine new stores and closed six stores.

A store is included in comparable store sales in the thirteenth month of operation. Stores that experience a gross square footage increase of 10% or more due to an expansion and/or relocation are removed from the comparable store sales base, but are included in total sales. These stores are returned to the comparable store sales base in the thirteenth month following the expansion and/or relocation. Comparable store sales also exclude the effects of foreign currency fluctuations.

Gross Profit. Gross profit of \$355.8 million in the Second Quarter decreased 13.1% in comparison to \$409.5 million in the Prior Year Quarter as a result of decreased sales and changes in foreign currencies. Gross profit margin rate decreased 340 basis points to 51.9% in the Second Quarter compared to 55.3% in the Prior Year Quarter. The gross profit margin rate decrease was largely driven by increased off-price sales to manage inventory levels and additional promotional activity to drive outlet sales. Additionally, the gross margin rate included an unfavorable currency impact of approximately 90 basis points.

Operating Expenses. Total operating expenses in the Second Quarter increased by \$1.3 million or 0.4% to \$340.3 million compared to \$339.0 million in the Prior Year Quarter. The translation of foreign-denominated expenses during the Second Quarter decreased operating expenses by approximately \$1.9 million as a result of the stronger U.S. dollar. The non-recurrence of \$6.5 million in restructuring costs that occurred in the Prior Year Quarter and lower store expenses were more than offset by increases in expenses associated with wearables including \$6.1 million of Misfit purchase accounting related costs and an increase in strategic omni-channel investments. As a percentage of net sales, operating expenses increased 390 basis points to 49.7% in the Second Quarter as compared to 45.8% in the Prior Year Quarter given the impact of relatively flat expenses on lower sales.

Consolidated Operating Income. Operating income decreased to \$15.5 million in the Second Quarter as compared to \$70.4 million in the Prior Year Quarter driven by lower sales and gross margin and an \$8.1 million unfavorable impact from changes in foreign currencies. As a percentage of net sales, operating margin decreased to 2.3% in the Second Quarter compared to 9.5% in the Prior Year Quarter and included a negative impact of approximately 110 basis points due to changes in foreign currencies.

Sales and gross margins were negatively impacted by currencies in all regional segments during the Second Quarter as compared to the Prior Year Quarter. On a constant currency basis, sales and gross profit decreased across all geographies. Our gross profit margin was negatively impacted by increased promotional activity in our stores, primarily outlets in all regions, and increased off-price sales in the America's wholesale channel in order to manage inventory levels. In the Second Quarter, total operating expenses were relatively flat to the Prior Year Quarter, with increased expenses relating to wearables and Misfit purchase accounting in our corporate costs offset by the non-recurrence of restructuring charges incurred in the Prior Year Quarter and decreased store costs across all segments.

Operating income by segment is summarized as follows (dollars in millions):

	For the 13 Weeks Ended July 2, 2016	For the 13 Weeks Ended July 4, 2015	Growth (Decline)		Operating Margin %	
			Dollars	Percentage	2016	2015
Americas	\$ 52.3	\$ 86.0	\$ (33.7)	(39.2)%	15.2%	22.3%
Europe	31.7	41.8	(10.1)	(24.2)	14.7	18.3
Asia	19.0	20.6	(1.6)	(7.8)	15.2	16.3
Corporate	(87.5)	(78.0)	(9.5)	12.2		
Total operating income	\$ 15.5	\$ 70.4	\$ (54.9)	(78.0)%	2.3%	9.5%

Interest Expense. Interest expense increased by \$1.4 million during the Second Quarter as a result of increased debt levels in comparison to the Prior Year Quarter.

Other Income (Expense)-Net. During the Second Quarter, other income (expense)-net decreased by \$11.8 million to \$2.5 million in comparison to the Prior Year Quarter. This change was primarily driven by lower net foreign currency gains resulting from mark-to-market hedging and other transactional activities as compared to the Prior Year Quarter and a \$5.2 million gain related to an interest rate hedge settlement in the Prior Year Quarter.

Provision for Income Taxes. Income tax expense for the Second Quarter was \$3.5 million, resulting in an effective income tax rate of 30.2%. For the Prior Year Quarter, income tax expense was \$22.9 million, resulting in an effective income tax rate of 28.7%. The higher effective tax rate in the Second Quarter as compared to the Prior Year Quarter was primarily attributable to the recognition of income tax benefits due to the settlement of audits in the Prior Year Quarter. The impact of this discrete benefit is partially offset by a lower projected effective tax rate for 2016 as compared to 2015, largely due to the projected shift in earnings mix towards foreign income which is taxed at lower statutory rates.

Net Income Attributable to Fossil Group, Inc. Second Quarter net income attributable to Fossil Group, Inc. decreased to \$6.0 million, or \$0.12 per diluted share, in comparison to \$54.6 million, or \$1.12 per diluted share, in the Prior Year Quarter. Diluted earnings per share in the Second Quarter as compared to the Prior Year Quarter included a \$0.19 per diluted share decrease driven by the translation impact of a stronger U.S. dollar and less net foreign currency gains resulting from mark-to-market hedging and other transactional activities. Diluted earnings per share was also unfavorably impacted by a \$0.09 per diluted share decrease due to the amortization of acquired Misfit intangible assets and of related contingent equity grants. Partially offsetting these decreases was a \$0.09 favorable impact to diluted earnings per share due to the non-recurrence of Prior Year Quarter restructuring charges.

Fiscal Year To Date Periods Ended July 2, 2016 and July 4, 2015

Consolidated Net Sales. Net sales decreased \$119.9 million or 8.2% (7% in constant currency), for the Year To Date Period as compared to the Prior Year YTD Period. Global watch sales decreased \$113.6 million or 10.1% (8% in constant currency). Our jewelry product category decreased \$7.3 million or 6.1% (5% in constant currency), while our leathers category increased \$3.3 million or 1.8% (4% in constant currency), during the Year To Date Period as compared to the Prior Year YTD Period. Global comparable store sales decreased 3.1% in our owned retail stores, with positive comparable store sales results in Europe and Asia more than offset by a decline in the Americas. From a product category perspective, comparable store sales declines in watches and jewelry were partially offset by a gain in leathers.

Net sales information by product category is summarized as follows (dollars in millions):

	For the 26 Weeks Ended July 2, 2016		For the 26 Weeks Ended July 4, 2015		Growth (Decline)

Total	\$ 1,345.2	100.0%	\$ 1,465.1	100.0%	\$ (119.9)	(8.2)%

In the Year To Date Period, the translation of foreign-based net sales into U.S. dollars decreased reported net sales by approximately \$23.2 million, including unfavorable impacts of \$8.4 million, \$7.6 million and \$7.2 million, in our Americas, Asia, and Europe and segments, respectively.

The following table sets forth consolidated net sales by segment (dollars in millions):

	For the 26 Weeks Ended July 2, 2016		For the 26 Weeks Ended July 4, 2015		Growth (Decline)	
	Net Sales	Percentage of Total	Net Sales	Percentage of Total	Dollars	Percentage
Americas	\$ 681.0	50.6%	\$ 752.7	51.4%	\$ (71.7)	(9.5)%
Europe	425.9	31.7	462.2	31.5	(36.3)	(7.9)

Total	\$ 1,345.2	100.0%	\$ 1,465.1	100.0%	\$ (119.9)	(8.2)%

Americas Net Sales. For the Year To Date Period, Americas net sales decreased \$71.7 million or 9.5% (8% in constant currency), compared to the Prior Year YTD Period. Sales performance in the Year To Date Period was principally driven by sales declines in watches of \$60.5 million or 10.6% (9% in constant currency). Our jewelry and leathers categories also declined \$4.3 million or 9.3% (9% in constant currency) and \$4.1 million or 3.4% (2% in constant currency), respectively. Comparable store sales decreased moderately in our owned retail stores during the Year To Date Period.

Europe Net Sales. For the Year To Date Period, Europe net sales decreased \$36.3 million or 7.9% (6% in constant currency), compared to the Prior Year YTD Period. The sales performance was driven by a \$35.3 million or 10.3% decrease in watches (9% in constant currency) and a \$4.7 million or 6.8% decrease in jewelry (6% in constant currency) while our leathers business increased \$4.1 million or 11.8% (15% in constant currency). Comparable store sales increased modestly in our owned retail stores during the Year To Date Period.

Asia Net Sales. For the Year To Date Period, Asia net sales decreased \$11.9 million or 4.8% (2% in constant currency), compared to the Prior Year YTD Period. The sales performance was principally driven by a \$17.8 million or 8.3% decrease in watches (5% in constant currency), partially offset by a \$3.4 million or 12.7% increase in our leathers category (18% in constant currency) and a \$1.7 million or 46.6% increase in jewelry (47% in constant currency). Comparable store sales in the region increased slightly in our owned retail stores.

Gross Profit. For the Year To Date Period, gross profit margin decreased 300 basis points to 52.3% compared to 55.3% in the Prior Year YTD Period. The decreased gross profit margin was primarily driven by the same factors impacting the Second Quarter, including an unfavorable currency impact of approximately 130 basis points.

Operating Expenses. For the Year To Date Period, operating expenses as a percentage of net sales increased to 50.1% compared to 46.7% in the Prior Year YTD Period and included an \$8.7 million favorable impact from the translation of foreign-based expenses into U.S. dollars. On a constant currency basis, operating expenses for the Year To Date Period decreased by \$0.7 million primarily as a result of the non-recurrence of restructuring charges incurred in the Prior Year YTD Period and decreased store expenses offset by increased expenses associated with wearables and Misfit purchase accounting related costs.

Consolidated Operating Income. Operating income decreased by \$96.7 million, or 76.4%, in the Year To Date Period as compared to the Prior Year YTD Period. As a percentage of net sales, operating margin decreased to 2.2% in the Year To Date Period as compared to 8.6% in the Prior Year YTD Period and was negatively impacted by approximately 150 basis points due to changes in foreign currencies.

During the Year To Date Period, sales and gross margins were negatively impacted by currencies in all regional segments as compared to the Prior Year YTD Period. During the Year To Date Period, gross profit margin was negatively impacted by promotional activities to drive retail sales in all geographies and an increased mix of sales in the off-price channel to manage inventory levels in our Americas segment. These unfavorable impacts to gross profit margin were partially offset by a favorable impact from our pricing initiatives. During the Year To Date Period, operating expenses deleveraged in the Americas and Europe segments largely due to fixed expenses on lower sales.

During the Year To Date Period, the translation of foreign-based sales and expenses into U.S. dollars decreased operating income by approximately \$20.8 million. Operating income by segment is summarized as follows (dollars in millions):

	For the 26 Weeks Ended July 2, 2016	For the 26 Weeks Ended July 4, 2015	Growth (Decline)		Operating Margin %	
			Dollars	Percentage	2016	2015
Americas	\$ 111.9	\$ 162.5	\$ (50.6)	(31.1)%	16.4%	21.6%

Corporate	(179.1)	(156.1)	(23.0)	14.7		
Total operating income	\$ 29.9	\$ 126.6	\$ (96.7)	(76.4)%	2.2%	8.6%

Interest Expense. Interest expense increased by \$3.2 million during the Year To Date Period as a result of increased debt levels in comparison to the Prior Year YTD Period.

Other Income (Expense)-Net. During the Year To Date Period, other income (expense)-net decreased by \$16.7 million to \$4.8 million in comparison to the Prior Year YTD Period. This decrease was primarily driven by lower net foreign currency hedging gains in the Year To Date Period compared to the Prior Year YTD period, and the non-recurrence of a \$5.2 million gain recorded in the Prior Year YTD Period related to an interest rate hedge settlement.

Provision for Income Taxes. Income tax expense for the Year To Date Period was \$6.8 million, resulting in an effective income tax rate of 30.5%. For the Prior Year YTD Period, income tax expense was \$41.4 million, resulting in an effective income tax rate of 29.8%. The higher effective tax rate in the Year To Date Period as compared to the Prior Year YTD Period was primarily attributable to the recognition of income tax benefits due to the settlement of audits in the Prior Year YTD Period. The impact of this discrete benefit is partially offset by a lower projected effective tax rate for 2016 as compared to 2015, largely due to the projected shift in earnings mix towards foreign income which is taxed at lower statutory rates.

Net Income Attributable to Fossil Group, Inc. Year To Date Period net income attributable to Fossil Group, Inc. decreased by 87.3% to \$11.8 million, or \$0.24 per diluted share, in comparison to \$92.7 million, or \$1.87 per diluted share, in the Prior Year YTD Period. Diluted earnings per share in the Year To Date Period as compared to the Prior Year YTD Period included a \$0.45 per diluted share decrease related to the foreign currency translation impact of a stronger U.S. dollar and less net foreign currency gains resulting from mark-to-market hedging and other transactional activities. Diluted earnings per share was also unfavorably impacted by an \$0.18 per diluted share decrease due to the amortization of acquired Misfit intangible assets and of related contingent equity grants. Partially offsetting these decreases was a \$0.27 favorable impact to diluted earnings per share due to the non-recurrence of Prior Year YTD Period restructuring charges.

Liquidity and Capital Resources

Historically, our business operations have not required substantial cash during the first several months of our fiscal year. Generally, starting in the third quarter, our cash needs begin to increase, typically reaching a peak in the September-November time frame as we increase inventory levels in advance of the holiday season. Our quarterly cash requirements are also impacted by the number of new stores we open, other capital expenditures and strategic investments such as acquisitions and stock repurchases. Our cash and cash equivalents balance at the end of the Second Quarter was \$231.8 million, including \$223.3 million held in banks outside the U.S., in comparison to cash and cash equivalents of \$249.9 million at the end of the Prior Year Quarter and \$289.3 million at the end of fiscal year 2015. We believe cash from operating activities as well as amounts available under our U.S. credit facilities are sufficient to meet our cash needs in the U.S. for the next 12 months.

For the Year to Date Period, we generated operating cash flow of \$71.9 million. This operating cash flow combined with cash on hand was utilized to fund \$74.0 million in net repayments on our credit facilities and \$39.3 million of capital expenditures. Cash flows provided by operations consisted primarily of net income of \$15.5 million adjusted by net non-cash expenses of \$46.5 million and a net \$10.0 million in funds provided by working capital items.

Accounts receivable, net of allowances, increased by 1.0% to \$257.1 million at the end of the Second Quarter compared to \$254.5 million at the end of the Prior Year Quarter. Days sales outstanding for our wholesale businesses for the Second

Quarter was 46 days compared to 41 days in the Prior Year Quarter. The increase was primarily due to the timing and mix of sales in the Second Quarter as compared to the Prior Year Quarter.

Inventory at the end of the Second Quarter was \$661.7 million, which represented a 1.1% decrease from the end of the Prior Year Quarter ending inventory balance of \$669.3 million.

(1) In the first quarter of fiscal year 2015, the Company completed this repurchase plan.

We effectively retired 0.1 million shares of common stock repurchased under our repurchase plans during the Year to Date Period. We account for the retirements by allocating the repurchase price, which is based upon the equity contribution associated with historical issuances, to common stock, additional paid-in capital and retained earnings. The effective retirement of common stock repurchased during the Year to Date Period decreased common stock by approximately \$1,100, additional paid-in capital by \$0.2 million, retained earnings by \$5.0 million and treasury stock by \$5.2 million. We effectively retired 2.5 million shares of our common stock during the Prior Year YTD Period that was repurchased under our repurchase programs. The effective retirement of common stock repurchased during the Prior Year YTD Period decreased common stock by approximately \$25,500, additional paid-in capital by \$0.6 million, retained earnings by \$216.4 million and treasury stock by \$217.0 million. At January 2, 2016 and July 2, 2016, all treasury stock had been effectively retired. As of July 2, 2016, we had a total of \$824.2 million of repurchase authorizations remaining under our combined repurchase programs.

At the end of the Second Quarter, we had working capital of \$900.7 million compared to working capital of \$984.4 million at the end of the Prior Year Quarter. Additionally, at the end of the Second Quarter, we had approximately \$26.3 million of short-term borrowings and \$708.7 million in long-term debt.

On March 9, 2015, we entered into an Amended and Restated Credit Agreement (as amended, the "Credit Agreement"). The Credit Agreement provides for (i) revolving credit loans in the amount of \$1.05 billion (the "Revolving Credit Facility"), with an up to \$20.0 million subfacility for swingline loans (the "Swingline Loan"), and an up to \$10.0 million subfacility for letters of credit, and (ii) a term loan in the amount of \$231.3 million (the "Term Loan"). The Credit Agreement expires and is due and payable on May 17, 2018. The Credit Agreement amended and restated that certain credit agreement, dated as of May 17, 2013, as amended (the "Prior Agreement").

Our obligations under the Credit Agreement are guaranteed by all of our direct and indirect material domestic subsidiaries and secured by a lien on all or substantially all of our assets and the assets of our direct and indirect material domestic subsidiaries, as well as the pledge of 65% of the total outstanding voting capital stock and 100% of the non-voting capital stock of our material first-tier foreign subsidiaries. The Credit Agreement refinanced the indebtedness under the Prior Agreement and may be used to finance the acquisition of capital assets, ongoing working capital and other general corporate purposes to the extent permitted under the Credit Agreement.

As of July 2, 2016, amounts outstanding under the Revolving Credit Facility and the Term Loan under the Credit Agreement bore interest, at our option, at (i) the base rate (defined as the highest of (a) the prime rate publicly announced by Wells Fargo, (b) the federal funds rate plus 0.5% and (c) London Interbank Offer Rate ("LIBOR") for an interest period of one

month plus 1.0%) plus the base rate applicable margin (which varies, based upon our consolidated total leverage ratio, from 0.25%, if the consolidated total leverage ratio is less than 1.00 to 1.00, to 1.00%, if the consolidated total leverage ratio was greater than or equal to 2.00 to 1.00) or (ii) the LIBOR rate (defined as the quotient obtained by dividing (a) LIBOR by (b) 1.00 minus the Eurodollar reserve percentage) plus the LIBOR rate applicable margin (which varies, based upon the consolidated total leverage ratio, from 1.25%, if the consolidated total leverage ratio was less than 1.00 to 1.00, to 2.00%, if the consolidated total leverage ratio is greater than or equal to 2.00 to 1.00).

As of August 8, 2016, amounts outstanding under the Revolving Credit Facility and the Term Loan under the Credit Agreement bear interest, at our option, at (i) the base rate (defined as the highest of (a) the prime rate publicly announced by Wells Fargo, (b) the federal funds rate plus 0.5% and (c) London Interbank Offer Rate ("LIBOR") for an interest period of one month plus 1.0%) plus the base rate applicable margin (which varies, based upon our consolidated total leverage ratio, from 0.50%, if the consolidated total leverage ratio is less than 1.00 to 1.00, to 1.75%, if the consolidated total leverage ratio is greater than or equal to 3.00 to 1.00) or (ii) the LIBOR rate (defined as the quotient obtained by dividing (a) LIBOR by (b) 1.00 minus the Eurodollar reserve percentage) plus the LIBOR rate applicable margin (which varies, based upon the consolidated total leverage ratio, from 1.50%, if the consolidated total leverage ratio is less than 1.00 to 1.00, to 2.75%, if the consolidated total leverage ratio is greater than or equal to 3.00 to 1.00).

Amounts outstanding under the Swingline Loan under the Credit Agreement or upon any drawing under a letter of credit bear interest at the base rate plus the applicable margin. Interest based upon the base rate is payable quarterly in arrears. Interest based upon the LIBOR rate is payable on the last day of the applicable interest period.

Financial covenants in the Credit Agreement require us to maintain (i) a consolidated total leverage ratio no greater than 2.50 to 1.00 for any fiscal quarter ending on or prior to March 31, 2016 and 3.25 to 1.00 for any fiscal quarter ending on or after June 30, 2016, and (ii) a consolidated interest coverage ratio no less than 3.50 to 1.00.

During the Year to Date Period, we made principal payments of \$9.4 million under the Term Loan. Additionally, we had net principal payments of \$64.0 million under the Revolving Credit Facility at an average annual interest rate of 2.08%. As of July 2, 2016, we had \$203.9 million and \$525.0 million outstanding under the Term Loan and the Revolving Credit Facility, respectively. In addition, we had \$1.1 million of outstanding standby letters of credit at July 2, 2016. Amounts available under the Revolving Credit Facility are reduced by any amounts outstanding under standby letters of credit. As of July 2, 2016, we had \$133.0 million in borrowing capacity under the Revolving Credit Facility, which was favorably impacted by a \$215.5 million international cash balance. Borrowings under the Revolving Credit Facility were mainly used to fund capital expenditures, normal operating expenses and common stock repurchases. The August 8, 2016 amendment to our Revolving Credit Facility would have increased our July 2, 2016 borrowing capacity by \$260.4 million, if it had been effective on that date. At July 2, 2016, we were in compliance with all debt covenants related to all our credit facilities.

For fiscal year 2016, we expect total capital expenditures to be approximately \$70 million to \$80 million. Of this amount, we expect approximately 65% will be for strategic growth, including investments in omni-channel, global concessions and technology, approximately 20% will be for retail store expansion and renovation and approximately 15% will be for technology and facilities maintenance. Our capital expenditure budget and allocation of it to the foregoing investments are estimates and are subject to change. We believe that cash flows from operations combined with existing cash on hand and amounts available under the Revolving Credit Facility will be sufficient to fund our working capital needs and planned capital expenditures for the next twelve months.

Contractual Obligations

As of July 2, 2016, there were no material changes to our contractual obligations set forth in our Annual Report on Form 10-K for the fiscal year ended January 2, 2016.

Off Balance Sheet Arrangements

As of July 2, 2016, there were no material changes to our off balance sheet arrangements as set forth in commitments and contingencies in our Annual Report on Form 10-K for the fiscal year ended January 2, 2016.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the periods reported. On an on-going basis, we evaluate our estimates and judgments, including those related to product returns, bad debt, inventories, long-lived asset impairment, impairment of

goodwill and trade names, income taxes, warranty costs, hedge accounting, litigation reserves and stock-based compensation. We base our estimates and judgments on historical experience and on various other factors that we believe to be reasonable under the circumstances. Our estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. There have been no changes to the critical accounting policies disclosed in “Part II, Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in our Annual Report on Form 10-K for the fiscal year ended January 2, 2016.

Forward-Looking Statements

The statements contained and incorporated by reference in this Quarterly Report on Form 10-Q that are not historical facts, including, but not limited to, statements regarding our expected financial position, results of operations, business and financing plans found in this “Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Item 3. Quantitative and Qualitative Disclosures About Market Risk,” constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 and involve a number of risks and uncertainties. The words “may,” “believes,” “expects,” “plans,” “intends,” “estimates,” “anticipates” and similar expressions identify forward-looking statements. The actual results of the future events described in such forward-looking statements could differ materially from those stated in such forward-looking statements. Among the factors that could cause actual results to differ materially are: the effect of worldwide economic conditions; significant changes in consumer spending patterns or preferences; interruptions or delays in the supply of key components; acts of war or acts of terrorism; changes in foreign currency valuations in relation to the U.S. dollar; lower levels of consumer spending resulting from a general economic downturn or generally reduced shopping activity caused by public safety or consumer confidence concerns; the performance of our products within the prevailing retail environment; customer acceptance of both new designs and newly-introduced product lines; financial difficulties encountered by customers; the effects of vigorous competition in the markets in which we operate; the integration of the organizations and operations of any acquired businesses into our existing organization and operations; the termination or non-renewal of material licenses, foreign operations and manufacturing; changes in the costs of materials, labor and advertising; government regulation; our ability to secure and protect trademarks and other intellectual property rights; and the outcome of current and possible future litigation.

In addition to the factors listed above, our actual results may differ materially due to the other risks and uncertainties discussed in this Quarterly Report on Form 10-Q and the risks and uncertainties set forth in our Annual Report on Form 10-K for the fiscal year ended January 2, 2016. Accordingly, readers of this Quarterly Report on Form 10-Q should consider these facts in evaluating the information and are cautioned not to place undue reliance on the forward-looking statements contained herein. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Foreign Currency Exchange Rate Risk

As a multinational enterprise, we are exposed to changes in foreign currency exchange rates. Our most significant foreign currency risk relates to the euro and, to a lesser extent, the British pound, Canadian dollar, Japanese yen, Mexican peso and Australian dollar as compared to the U.S. dollar. Due to our vertical nature whereby a significant portion of goods are sourced from our owned entities, we face foreign currency risks related to the necessary current settlement of intercompany inventory transactions. We employ a variety of operating practices to manage these market risks relative to foreign currency exchange rate changes and, where deemed appropriate, utilize forward contracts. These operating practices include, among others, our ability to convert foreign currency into U.S. dollars at spot rates and to maintain U.S. dollar pricing relative to sales of our products to certain distributors located outside the U.S. Additionally, during the first quarter of fiscal year 2016, the Company entered into forward contracts to manage fluctuations in Japanese yen exchange rates that will be used to settle future third-party inventory component purchases by a U.S. dollar functional currency subsidiary. The use of forward contracts allows us to offset exposure to rate fluctuations because the gains or losses incurred on the derivative instruments will offset, in whole or in part, losses or gains on the underlying foreign currency exposure. We use derivative instruments only for risk management purposes and do not use them for speculation or for trading. There were no significant changes in how we managed foreign currency transactional exposure in the Second Quarter, and management does not anticipate any significant changes in such exposures or in the strategies we employ to manage such exposure in the near future.

We are exposed to risk that adverse changes in foreign currency exchange rates could impact our net investment in foreign operations. To manage this risk, during the first quarter of fiscal year 2016, we entered into a forward contract

designated as a net investment hedge to reduce exposure to changes in currency exchange rates on 45.0 million euros of our total investment in a euro-denominated foreign subsidiary. The hedge was settled during the Second Quarter resulting in a net gain of \$0.5 million net of taxes that was recognized in the currency translation component of accumulated other comprehensive income (loss).

The following table shows our outstanding forward contracts designated as cash flow hedges for inventory transactions (in millions) at July 2, 2016 and their expiration dates.

Functional Currency		Contract Currency		Expiration Date
Type	Amount	Type	Amount	
Euro	255.1	U.S. dollar	288.3	May 2018
British pound	52.9	U.S. dollar	79.0	June 2018
Canadian dollar	80.5	U.S. dollar	61.0	June 2018
Japanese yen	4,077.9	U.S. dollar	35.7	June 2018
Mexican peso	335.4	U.S. dollar	18.3	March 2017
Australian dollar	20.0	U.S. dollar	14.6	March 2017
U.S. dollar	28.0	Japanese yen	3,013.0	November 2016

If we were to settle our euro, British pound, Canadian dollar, Japanese yen, Mexican peso, Australian dollar and U.S. dollar based forward contracts hedging inventory transactions as of July 2, 2016, the net result would have been a net gain of approximately \$3.8 million, net of taxes. As of July 2, 2016, a 10% unfavorable change in the U.S. dollar strengthening against foreign currencies to which we have balance sheet transactional exposures would have decreased net pre-tax income by \$12.1 million. The translation of the balance sheets of our foreign-based operations from their local currencies into U.S. dollars is also sensitive to changes in foreign currency exchange rates. As of July 2, 2016, a 10% unfavorable change in the exchange rate of the U.S. dollar strengthening against the foreign currencies to which we have exposure would have reduced consolidated stockholders' equity by approximately \$64.9 million.

Interest Rate Risk

We are subject to interest rate volatility with regard to debt borrowings. Effective July 26, 2013, we entered into an interest rate swap agreement with a term of approximately five years to manage our exposure to interest rate fluctuations on our Term Loan. We will continue to evaluate our interest rate exposure and the use of interest rate swaps in future periods to mitigate our risk associated with adverse fluctuations in interest rates.

Based on our variable-rate debt outstanding as of July 2, 2016, excluding the \$203.9 million outstanding under our Term Loan hedged with an interest rate swap agreement, a 100 basis point increase in interest rates would increase annual interest expense by approximately \$5.3 million.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We conducted an evaluation of the effectiveness of our “disclosure controls and procedures” (“Disclosure Controls”), as defined by Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), as of the end of the period covered by this Quarterly Report on Form 10-Q. The Disclosure Controls evaluation was done under the supervision and with the participation of management, including our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”). There are inherent limitations to the effectiveness of any system of disclosure controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

Based upon this evaluation, our CEO and CFO have concluded that our Disclosure Controls were effective as of July 2, 2016.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the Second Quarter that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

There are no legal proceedings to which we are a party or to which our properties are subject, other than routine litigation incidental to our business, which is not material to our consolidated financial condition, results of operations or cash flows.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table shows our common stock repurchases based on settlement date for the fiscal quarter:

ISSUER PURCHASES OF EQUITY SECURITIES

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Programs (2)
April 3, 2016 - July 2, 2016	18,808	\$ 43.42	18,600	\$ 824,158,481
Total	<u>18,808</u>		<u>18,600</u>	

- (1) During the Second Quarter, 208 shares of repurchased common stock were acquired from grantees in connection with income tax withholding obligations arising from vesting of restricted stock grants. These shares were not part of our publicly announced program to repurchase shares of common stock.
- (2) In November 2014, we announced a common stock repurchase program pursuant to which \$1.0 billion could be used to repurchase outstanding shares of our common stock. This \$1.0 billion repurchase program has a termination date of December 2018. In addition, we have a \$30.0 million common stock repurchase program with no termination date.

Subject to Section 5 of this Award, the Company shall deliver the certificates requested by the Participant to the Participant as soon as administratively practicable following the Company's receipt of such request. Upon registration (or issuance) of any shares hereunder, the Participant may be required to enter into such written representations, warranties and agreements as the Company may reasonably request in order to comply with applicable securities laws, the Long-Term Incentive Plan or with the Notice of Grant. Notwithstanding the foregoing, to the extent (i) the Participant is deemed as of his Termination of Service to be a "specified employee" under Section 409A of the Internal Revenue Code of 1986, as amended ("Section 409A"); and (ii) on the Termination of Service the Company is publicly traded (as defined in Section 409A of the Code), then, to the extent required by Section 409A of the Code, no Restricted Stock Unit shall vest, or be converted into shares of Common Stock, until the earlier of (x) the first day of the seventh month following the Participant's Termination of Service or (y) the date of the Participant's death following such Termination of Service. Upon the expiration of the applicable deferral period, any Restricted Stock Units which would have otherwise been vested and converted into shares of Common Stock during that period (whether in a single sum or in installments) shall be converted into shares of Common Stock and transferred to the Participant or the Participant's beneficiary in one lump sum.

5. **Tax Withholding Obligations.** The Participant shall be required to deposit with the Company an amount of cash equal to the amount determined by the Company to be required with respect to any withholding taxes, FICA contributions, or the like under any federal, state, or local statute, ordinance, rule, or regulation in connection with the award or settlement of the Restricted Stock Units. Alternatively, the Company may, at its sole election, (i) withhold the required amounts from the Participant's pay during the pay periods next following the date on which any such applicable tax liability otherwise arises, or (ii) withhold a number of shares of Common Stock otherwise deliverable having a Fair Market Value sufficient to satisfy the statutory minimum of all or part of the Participant's estimated total federal, state, and local tax obligations associated with vesting or settlement of the Restricted Stock Units. The Company shall not deliver any of the shares of Common Stock until and unless the Participant has made the deposit required herein or proper provision for required withholding has been made.

6. **Assignability.** Until the Restricted Stock Units are vested as provided above, they may not be sold, transferred, pledged, assigned, or otherwise alienated other than by will or the laws of descent and distribution or pursuant to a qualified domestic relations order as defined by Code or Title I of the Employee Retirement Income Security Act of 1974, as amended. Any attempt to do so contrary to the provisions hereof shall be null and void. No assignment of the Restricted Stock Units herein granted shall be effective to bind the Company unless the Company shall have been furnished with written notice thereof and a copy of such documents and evidence as the Company may deem necessary to establish the validity of the assignment and the acceptance by the assignee or assignees of the terms and conditions hereof.

7. **No Stockholder Rights.** The Participant shall have no rights as a stockholder of the Company with respect to the Restricted Stock Units unless and until certificates evidencing shares of Common Stock shall have been issued by the Company to the Participant. Until such time, the Participant shall not be entitled to dividends or distributions in respect of any shares or to vote such shares on any matter submitted to the stockholders of the Company. In addition, except as to adjustments that may from time to time be made by the Committee in accordance with the Long-Term Incentive Plan, no adjustment shall be made or required to be made in respect of dividends (ordinary or extraordinary, whether in cash, securities or any other property) or distributions paid or made by the Company or any other rights granted in respect of any shares for which the record date for such payment, distribution or grant is prior to the date upon which certificates evidencing such shares shall have been issued by the Company.

8. **Administration.** The Committee shall have the power to interpret the Long-Term Incentive Plan, the Notice of Grant and this Award, and to adopt such rules for the administration, interpretation, and application of the Long-Term Incentive Plan as are consistent therewith and to interpret or revoke any such rules. All actions taken and all interpretations and determinations made by the Committee shall be final and binding upon the Participant, the Company, and all other interested persons. No member of the Committee shall be personally liable for any action, determination, or interpretation made in good faith with respect to the Long-Term Incentive Plan or this Award.

9. **Restrictions and Related Representations.** Upon the acquisition of any shares of Common Stock pursuant to the vesting of the Restricted Stock Units granted pursuant hereto, the Participant may be required to enter into such written representations, warranties and agreements as the Company may reasonably request in order to comply with applicable securities laws, the Long-Term Incentive Plan or with this Award. In addition, to the extent a certificate or certificates are issued representing any shares, the certificate or certificates will be stamped or otherwise imprinted with a legend in such form as the Company may require with respect to any applicable restrictions on sale or transfer, and the stock transfer records of the Company will reflect stop-transfer instructions, as appropriate, with respect to such shares.

10. **Notices and Electronic Delivery.** Unless otherwise provided herein, any notice or other communication hereunder shall be in writing and shall be given by registered or certified mail unless the Company, in its sole discretion, decides to deliver any documents relating to the Award or future awards that may be granted under the Long-Term Incentive Plan by electronic means or to request the Participant's consent to participate in the Long-Term Incentive Plan by electronic means. The Participant hereby consents to receive such documents by electronic delivery and, if requested, to agree to participate in the Long-Term Incentive Plan through an on-line or electronic system established and maintained by the Company or another third party designated by the Company. All notices by the Participant hereunder shall be directed to Fossil Group, Inc., Attention: Secretary, at the Company's then current address unless the Company, in writing or electronically, directs the Participant otherwise. Any notice given by the Company to the Participant directed to him at his address on file with the Company shall be effective to bind any other person who shall acquire rights hereunder. The Participant shall be deemed to have familiarized himself with all matters contained herein and in the Long-Term Incentive Plan which may affect any of the Participant's rights or privileges hereunder.

11. **Scope of Certain Terms.** Whenever the term "Participant" is used herein under circumstances applicable to any other person or persons to whom this Award may be assigned in accordance with the provisions of Paragraph 6 (Assignability) of this Agreement, it shall be deemed to include such person or persons. The term "Long-Term Incentive Plan" as used herein shall be deemed to include the Long-Term Incentive Plan and any subsequent amendments thereto, together with any administrative interpretations which have been adopted thereunder by the Committee pursuant to Section 3.3 of the Long-Term Incentive Plan. Unless otherwise indicated, defined terms herein shall have the meaning ascribed to them in the Long-Term Incentive Plan.

12. **General Restrictions.** This Award is subject to the requirement that, if at any time the Committee shall determine that (a) the listing, registration or qualification of the shares of Common Stock subject or related thereto upon any securities exchange or under any state or federal law; (b) the consent or approval of any government regulatory body; or (c) an agreement by the recipient of an Award with respect to the disposition of shares of Common Stock, is necessary or desirable (in connection with any requirement or interpretation of any federal or state securities law, rule or regulation) as a condition of, or in connection with, the granting of such Award or the issuance, purchase or delivery of shares of Common Stock thereunder, such Award may not be consummated in whole or in part unless such listing, registration, qualification, consent, approval or agreement shall have been effected or obtained free of any conditions not acceptable to the Committee.

13. **Adjustments for Changes in Capitalization.** The number of Restricted Stock Units covered by this Award shall be subject to adjustment in accordance with Articles 12-14 of the Long-Term Incentive Plan.

14. **No Right of Employment.** Neither the granting of the Restricted Stock Units, the exercise of any part hereof, nor any provision of the Long-Term Incentive Plan or this Award shall constitute or be evidence of any

understanding, express or implied, on the part of the Company or any Subsidiary to employ the Participant for any specified period.

15. **Amendment.** This Award may be amended only by a writing executed by the Company and the Participant which specifically states that it is amending this Award. Notwithstanding the foregoing, this Award may be amended solely by the Committee by a writing which specifically states that it is amending this Award, so long as a copy of such amendment is delivered to the Participant, and provided that no such amendment adversely affecting the rights of the Participant hereunder may be made without the Participant's written consent. Without limiting the foregoing, the Committee reserves the right to change, by written notice to the Participant, the provisions of the Restricted Stock Units or this Award in any way it may deem necessary or advisable to carry out the purpose of the grant as a result of any change in Applicable Laws or regulations or any future law, regulation, ruling, or judicial decision, provided that any such change shall be applicable only to Restricted Stock Units which are then subject to restrictions as provided herein.

16. **Precondition of Legality.** Notwithstanding anything to the contrary contained herein, the Participant agrees that the Company will not be obligated to issue any shares pursuant to this Award, if the issuance of such shares would constitute a violation by the Participant or by the Company of any provision of any law or regulation of any governmental authority or any national securities exchange or transaction quotation system.

17. **Incorporation of the Long-Term Incentive Plan.** This Award is subject to the Long-Term Incentive Plan, a copy of which has been furnished to the Participant and for which the Participant acknowledges receipt. The terms and provisions of the Long-Term Incentive Plan are incorporated by reference herein. In the event of a conflict between any term or provision contained here in and a term or provision of the Long-Term Incentive Plan, the applicable terms and provisions of the Long-Term Incentive Plan shall govern and prevail.

18. **Severability.** If one or more of the provisions of this Award shall be held invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby and the invalid, illegal or unenforceable provisions shall be deemed null and void; however, to the extent permissible by law, any provisions which could be deemed null and void shall first be construed, interpreted or revised retroactively to permit this Award to be construed so as to first the intent of this Award and the Long-Term Incentive Plan.

19. **Construction.** The Restricted Stock Units are being issued pursuant to Section 6.6 of the Long-Term Incentive Plan and are subject to the terms of the Long-Term Incentive Plan. A copy of the Long-Term Incentive Plan has been given to the Participant, and additional copies of the Long-Term Incentive Plan are available upon request during normal business hours at the principal executive offices of the Company. 20. **Governing Law.** The Restricted Stock Unit grant and the provisions of this Award are governed by, and subject to, the laws of the State of Delaware, as provided in the Long-Term Incentive Plan.

STOCK APPRECIATION RIGHTS AWARD
under the Fossil Group, Inc. 2016 Long-Term Incentive Plan

This STOCK APPRECIATION RIGHTS AWARD (the “Award”), is entered into effect as of the date of the grant (the “Effective Date”).

W I T N E S S E T H:

WHEREAS, Fossil Group, Inc., a Delaware corporation (the “Company”) has adopted the Fossil Group, Inc. 2016 Long-Term Incentive Plan (the “Long-Term Incentive Plan”) effective as of the Effective Date (as defined in the Long-Term Incentive Plan) with the objective of retaining key executives and other selected employees and of rewarding them for making major contributions to the success of the Company and its Subsidiaries; and

WHEREAS, the Long-Term Incentive Plan provides that an employee of the Company or its Subsidiaries may be granted a Stock Appreciation Right Award, which may consist of the right to receive a payment, in cash or shares of common stock, par value \$.01 per share (“Common Stock”), of the Company, equal to the excess of the Fair Market Value of a specified number of shares of Common Stock on the date the Stock Appreciation Right (“SAR”) is exercised over a specified strike price as set forth in the Award;

NOW, THEREFORE, the Participant identified in the Notice of Grant is hereby awarded Stock Appreciation Rights in accordance with the following terms:

1. **Grant of Award; Stock Appreciation Rights.** Subject to the terms and conditions set forth in the Long-Term Incentive Plan, this Award and in the Notice of Grant, the Company hereby grants to the Participant that number of SARs set forth in the Notice of Grant, consisting of the right to receive, upon exercise of each SAR, shares of Common Stock with a Fair Market Value equal to the excess of the Fair Market Value of each share of Common Stock on the date of exercise minus the Fair Market Value of each share of Common Stock on the date of this Award, subject to any adjustments that may be made pursuant to the terms of the Long-Term Incentive Plan (the “SAR Payment Value”).

2. **SAR Exercise Period and Vesting.** The SARs granted pursuant to this Award may be exercised by the Participant at any time prior to the Expiration Date set forth in the Notice of Grant (the “Exercise Period”), subject to the limitation that such SARs shall vest and become exercisable only if the Participant remains continuously employed by the Company or its Subsidiaries through each Vesting Date set forth in the Notice of Grant (it being understood that the right to exercise the SARs shall be cumulative, so that the Participant may exercise on or after any Vesting Date and during the remainder of the Exercise Period that number of SARs which the Participant was entitled to exercise but did not exercise during any preceding period or periods).

Notwithstanding the foregoing, in the event the Participant incurs a Termination of Service (as such term is defined in that certain Executive Severance Agreement by and between the Company and the Participant (the “Severance Agreement”)) without Cause (as defined in the Severance Agreement) or for Good Reason (as defined in the Severance Agreement) prior to a Change in Control, then for the eighteen (18) month period immediately following such Termination of Service (the “SAR Vesting Continuation Period”), the then-outstanding SARs shall continue to vest as if the Participant had remained employed with the Company during such period; provided, however, if such Termination of Service occurs in connection with or following a Change in Control, the SARs shall become full vested as of the Termination Date (as defined in the Severance Agreement) .

Notwithstanding the vesting conditions set forth herein, (i) the Committee may in its discretion at any time accelerate the vesting of SARs; and (ii) all of the SARs shall vest upon a Change in Control of the Company or upon the death of the Participant

3. **Method of Exercise.** The Participant (or his representative, guardian, devisee or heir, as applicable) may exercise any portion of this SAR that has become exercisable in accordance with the terms hereof as to all or any of the SARs by giving written notice of exercise to the Company, in form satisfactory to the Board, specifying the number of SARs to be exercised. The SAR Payment Value shall be paid to the Participant in shares of Common Stock. This SAR may not be exercised for less than one (1) SAR or the number of whole SARs remaining under this Award, whichever is smaller. As promptly as practicable following the receipt of such written notification, the Company shall electronically register the number of shares of Common Stock having a Fair Market Value (as of the effective date of the Participant's notice of exercise) equal to the SAR Payment Value with respect to those SARs which have been exercised. No stock certificate or certificates shall be issued with respect to such shares of Common Stock, unless, the Participant requests delivery of the certificate or certificates by submitting a written request to the General Counsel requesting delivery of the certificates. The Company shall deliver the certificates requested by the Participant to the Participant as soon as administratively practicable following the Company's receipt of such request. Upon registration (or issuance) of any shares hereunder, the Participant may be required to enter into such written representations, warranties and agreements as the Company may reasonably request in order to comply with applicable securities laws, the Long-Term Incentive Plan or with this Notice of Grant.

4. **Termination in Event of Nonemployment.** Except as provided in Section 2 of this Award, in the event that the Participant ceases to be employed by the Company or any of its Subsidiaries during the Exercise Period for any reason other than death, at a time which the SARs granted pursuant hereto are still in force and unexpired, the SARs granted pursuant to this Award shall terminate, except to the extent that they are vested on the date of termination of employment, and exercised on or prior to the date that is three (3) months following termination of employment (or, if earlier, on the expiration date of the SARs). Notwithstanding the foregoing, vested SARs, including each SAR that vests in connection with the Participant's Termination of Service pursuant to Section 2 of this Award, shall remain exercisable until the earlier of (i) the Expiration Date and (ii) the date that is (A) in the case of any such Termination of Service prior to a Change in Control, eighteen (18) months following the Termination of Service or (B) in the case of any such Termination of Service in connection with or following a Change in Control, twenty-four (24) months following the Termination of Service.

Such acceleration shall be effective as of the date of death of the Participant. The Participant's representatives, devisees or heirs, as applicable, shall have a period of one (1) year following the date of death in which to exercise the SARs (or, if earlier, on the expiration date of the SARs).

6. **Assignability.** The SARs granted pursuant hereto shall not be assignable or transferable by the Participant other than by will or the laws of descent and distribution or pursuant to a qualified domestic relations order as defined by Code or Title I of the Employee Retirement Income Security Act of 1974, as amended. Any attempt to do so contrary to the provisions hereof shall be null and void. No assignment of the SARs herein granted shall be effective to bind the Company unless the Company shall have been furnished with written notice thereof and a copy of such documents and evidence as the Company may deem necessary to establish the validity of the assignment and the acceptance by the assignee or assignees of the terms and conditions hereof.

7. **No Stockholder Rights.** The Participant shall have no rights as a stockholder of the Company with respect to the SARs unless and until certificates evidencing shares of Common Stock shall have been electronically registered in the Participant's name, or if applicable, issued by the Company to the Participant. No member of the Committee shall be personally liable for any action, determination, or interpretation made in good faith with respect to the Long-Term Incentive Plan or this Award.

9. **Tax Withholding Obligations.** The Participant shall be required to deposit with the Company an amount of cash equal to the amount determined by the Company to be required with respect to any withholding taxes, FICA contributions, or the like under any federal, state, or local statute, ordinance, rule, or regulation in connection with the issuance of shares of Common Stock for the SAR Payment Value. Alternatively, the Company may, at its sole election, (i) withhold the required amounts from the Participant's pay during the pay periods next following the date on which any such applicable tax liability otherwise arises, or (ii) withhold a number of shares of Common Stock otherwise deliverable having a Fair Market Value sufficient to satisfy the statutory minimum of all or part of the Participant's estimated total federal, state, and local tax obligations associated with payment of the SAR Payment Value. The Company shall not deliver any of the shares of Company Stock until and unless the Participant has made the deposit required herein or proper provision for required withholding has been made.

10. **Restrictions and Related Representations.** Upon the acquisition of any shares of Common Stock pursuant to the exercise of the SARs granted pursuant hereto, the Participant may be required to enter into such written representations, warranties and agreements as the Company may reasonably request in order to comply with applicable securities laws, the Long-Term Incentive Plan or with this Award. In addition, to the extent a certificate or certificates are issued representing any shares, the certificate or certificates will be stamped or otherwise imprinted with a legend in such form as the Company may require with respect to any applicable restrictions on sale or transfer, and the stock transfer records of the Company will reflect stop-transfer instructions, as appropriate, with respect to such shares.

11. **Notices and Electronic Delivery.** Unless otherwise provided herein, any notice or other communication hereunder shall be in writing and shall be given by registered or certified mail unless the Company, in its sole discretion, decides to deliver any documents relating to the Award or future awards that may be granted under the Long-Term Incentive Plan by electronic means or to request the Participant's consent to participate in the Long-Term Incentive Plan by electronic means. The Participant hereby consents to receive such documents by electronic delivery and, if requested, to agree to participate in the Long-Term Incentive Plan through an on-line or electronic system established and maintained by the Company or another third party designated by the Company. Alternatively, the Company may, at its sole election, (i) withhold the required amounts from the Participant's pay during the pay periods next following the date on which any such applicable tax liability otherwise arises, or (ii) withhold a number of shares of Common Stock otherwise deliverable having a Fair Market Value sufficient to satisfy the statutory minimum of all or part of the Participant's estimated total federal, state, and local tax obligations associated with vesting or settlement of the Restricted Stock Units. The Company shall not deliver any of the shares of Common Stock until and unless the Participant has made the deposit required herein or proper provision for required withholding has been made.

6. **Assignability.** Until the Restricted Stock Units are vested as provided above, they may not be sold, transferred, pledged, assigned, or otherwise alienated other than by will or the laws of descent and distribution or pursuant to a qualified domestic relations order as defined by Code or Title I of the Employee Retirement Income Security Act of 1974, as amended. Any attempt to do so contrary to the provisions hereof shall be null and void. No assignment of the Restricted Stock Units herein granted shall be effective to bind the Company unless the Company shall have been furnished with written notice thereof and a copy of such documents and evidence as the Company may deem necessary to establish the validity of the assignment and the acceptance by the assignee or assignees of the terms and conditions hereof.

7. **No Stockholder Rights.** The Participant shall have no rights as a stockholder of the Company with respect to the Restricted Stock Units unless and until certificates evidencing shares of Common Stock shall have been issued by the Company to the Participant. Until such time, the Participant shall not be entitled to dividends or distributions in respect of any shares or to vote such shares on any matter submitted to the stockholders of the Company.

In addition, except as to adjustments that may from time to time be made by the Committee in accordance with the Long-Term Incentive Plan, no adjustment shall be made or required to be made in respect of dividends (ordinary or extraordinary, whether in cash, securities or any other property) or distributions paid or made by the Company or any other rights granted in respect of any shares for which the record date for such payment, distribution or grant is prior to the date upon which certificates evidencing such shares shall have been issued by the Company.

8. **Administration.** The Committee shall have the power to interpret the Long-Term Incentive Plan, the Notice of Grant and this Award, and to adopt such rules for the administration, interpretation, and application of the Long-Term Incentive Plan as are consistent therewith and to interpret or revoke any such rules. All actions taken and all interpretations and determinations made by the Committee shall be final and binding upon the Participant, the Company, and all other interested persons. No member of the Committee shall be personally liable for any action, determination, or interpretation made in good faith with respect to the Long-Term Incentive Plan or this Award.

9. **Restrictions and Related Representations.** Upon the acquisition of any shares of Common Stock pursuant to the vesting of the Restricted Stock Units granted pursuant hereto, the Participant may be required to enter into such written representations, warranties and agreements as the Company may reasonably request in order to comply with applicable securities laws, the Long-Term Incentive Plan or with this Award. In addition, to the extent a certificate or certificates are issued representing any shares, the certificate or certificates will be stamped or otherwise imprinted with a legend in such form as the Company may require with respect to any applicable restrictions on sale or transfer, and the stock transfer records of the Company will reflect stop-transfer instructions, as appropriate, with respect to such shares.

10. **Notices and Electronic Delivery.** Unless otherwise provided herein, any notice or other communication hereunder shall be in writing and shall be given by registered or certified mail unless the Company, in its sole discretion, decides to deliver any documents relating to the Award or future awards that may be granted under the Long-Term Incentive Plan by electronic means or to request the Participant's consent to participate in the Long-Term Incentive Plan by electronic means. The Participant hereby consents to receive such documents by electronic delivery and, if requested, to agree to participate in the Long-Term Incentive Plan through an on-line or electronic system established and maintained by the Company or another third party designated by the Company. All notices by the Participant hereunder shall be directed to Fossil Group, Inc., Attention: Secretary, at the Company's then current address unless the Company, in writing or electronically, directs the Participant otherwise. Any notice given by the Company to the Participant directed to him at his address on file with the Company shall be effective to bind any other person who shall acquire rights hereunder. The Participant shall be deemed to have familiarized himself with all matters contained herein and in the Long-Term Incentive Plan which may affect any of the Participant's rights or privileges hereunder.

11. **Scope of Certain Terms.** Whenever the term "Participant" is used herein under circumstances applicable to any other person or persons to whom this Award may be assigned in accordance with the provisions of Paragraph 6 (Assignability) of this Agreement, it shall be deemed to include such person or persons. The term "Long-Term Incentive Plan" as used herein shall be deemed to include the Long-Term Incentive Plan and any subsequent amendments thereto, together with any administrative interpretations which have been adopted thereunder by the Committee pursuant to Section 3.3 of the Long-Term Incentive Plan. Unless otherwise indicated, defined terms herein shall have the meaning ascribed to them in the Long-Term Incentive Plan.

12. **General Restrictions.** This Award is subject to the requirement that, if at any time the Committee shall determine that (a) the listing, registration or qualification of the shares of Common Stock subject or related thereto upon any securities exchange or under any state or federal law; (b) the consent or approval of any government regulatory body; or (c) an agreement by the recipient of an Award with respect to the disposition of shares of Common Stock, is necessary or desirable (in connection with any requirement or interpretation of any federal or state securities law, rule or regulation) as a condition of, or in connection with, the granting of such Award or the issuance, purchase or delivery of shares of Common Stock thereunder, such Award may not be consummated in whole or in part unless such listing, registration, qualification, consent, approval or agreement shall have been effected or obtained free of any conditions not acceptable to the Committee.

13. **Adjustments for Changes in Capitalization.** The number of Restricted Stock Units covered by this Award shall be subject to adjustment in accordance with Articles 12-14 of the Long-Term Incentive Plan.
14. **No Right of Employment.** Neither the granting of the Restricted Stock Units, the exercise of any part hereof, nor any provision of the Long-Term Incentive Plan or this Award shall constitute or be evidence of any understanding, express or implied, on the part of the Company or any Subsidiary to employ the Participant for any specified period.
15. **Amendment.** This Award may be amended only by a writing executed by the Company and the Participant which specifically states that it is amending this Award. Notwithstanding the foregoing, this Award may be amended solely by the Committee by a writing which specifically states that it is amending this Award, so long as a copy of such amendment is delivered to the Participant, and provided that no such amendment adversely affecting the rights of the Participant hereunder may be made without the Participant's written consent. Without limiting the foregoing, the Committee reserves the right to change, by written notice to the Participant, the provisions of the Restricted Stock Units or this Award in any way it may deem necessary or advisable to carry out the purpose of the grant as a result of any change in applicable laws or regulations or any future law, regulation, ruling, or judicial decision, provided that any such change shall be applicable only to Restricted Stock Units which are then subject to restrictions as provided herein.
16. **Precondition of Legality.** Notwithstanding anything to the contrary contained herein, the Participant agrees that the Company will not be obligated to issue any shares pursuant to this Award, if the issuance of such shares would constitute a violation by the Participant or by the Company of any provision of any law or regulation of any governmental authority or any national securities exchange or transaction quotation system.
17. **Incorporation of the Long-Term Incentive Plan.** This Award is subject to the Long-Term Incentive Plan, a copy of which has been furnished to the Participant and for which the Participant acknowledges receipt. The terms and provisions of the Long-Term Incentive Plan are incorporated by reference herein. In the event of a conflict between any term or provision contained here in and a term or provision of the Long-Term Incentive Plan, the applicable terms and provisions of the Long-Term Incentive Plan shall govern and prevail.
18. **Severability.** If one or more of the provisions of this Award shall be held invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby and the invalid, illegal or unenforceable provisions shall be deemed null and void; however, to the extent permissible by law, any provisions which could be deemed null and void shall first be construed, interpreted or revised retroactively to permit this Award to be construed so as to first the intent of this Award and the Long-Term Incentive Plan.
19. **Construction.** The Restricted Stock Units are being issued pursuant to Section 6.6 of the Long-Term Incentive Plan and are subject to the terms of the Long-Term Incentive Plan. A copy of the Long-Term Incentive Plan has been given to the Participant, and additional copies of the Long-Term Incentive Plan are available upon request during normal business hours at the principal executive offices of the Company. To the extent that any provision of this Award violates or is inconsistent with an express provision of the Long-Term Incentive Plan, the Long-Term Incentive Plan provision shall govern and any inconsistent provision in this Award shall be of no force or effect.
20. **Governing Law.** The Restricted Stock Unit grant and the provisions of this Award are governed by, and subject to, the laws of the State of Delaware, as provided in the Long-Term Incentive Plan.
