## FOSSIL GROUP, INC. REPORTS THIRD QUARTER 2023 FINANCIAL RESULTS

## Updates Full Year 2023 Outlook

Richardson, TX, NOVEMBER 8, 2023 (GLOBE NEWSWIRE) - Fossil Group, Inc. (NASDAQ: FOSL) today announced financial results for the fiscal third quarter ended September 30, 2023.

## Third Quarter Summary

- Third quarter worldwide net sales totaled $\$ 344$ million, decreasing $21 \%$.
- Net sales in the Company's direct to consumer channels were down $12 \%$ in constant currency, with a comparable retail sales decrease of $6 \%$. Net sales in our wholesale channels were down $25 \%$. The Company's global owned ecommerce platform grew 8\%.
- FOSSIL brand sales declined $14 \%$ in constant currency, reflecting a modest contraction in traditional watches, and more significant declines in smartwatches and leathers.
- Operating loss of $\$ 46$ million compared to operating income of $\$ 22$ million a year ago. Adjusted operating loss of $\$ 31$ million compared to adjusted operating income of $\$ 23$ million last year.
- Inventory totaled $\$ 327$ million, a decrease of $28 \%$ versus a year ago; and the Company had total liquidity of $\$ 140$ million at quarter end.

Kosta Kartsotis, Chairman and CEO, stated, "Against a backdrop of challenging category, consumer and channel dynamics, our year-to-date financial results are below our expectations. We are highly focused on delivering strong execution during the holiday season and implementing our TAG Plan designed to right size our cost structure and improve profitability. For full year 2023, we are on track to capture expected annualized cost savings of approximately $\$ 100$ million, putting us well on our way to achieving the previously announced $\$ 300$ million in annualized benefits by 2025."

## Third Quarter 2023 Operating Results

Amounts referred to as "adjusted" as well as "constant currency" are non-GAAP financial measures. Reconciliations of these non-GAAP financial measures to their closest reported GAAP measures are included at the end of this press release.

- Net sales totaled $\$ 344.1$ million, a decrease of $21.1 \%$ on a reported basis and $22.1 \%$ in constant currency compared to $\$ 436.3$ million in the third quarter of fiscal 2022. The sales decrease was largely driven by the wholesale channel, and to a lesser extent, softness in smartwatch sales and our store rationalization initiatives. Net sales, in constant currency, declined 30\% in Europe, 18\% in Americas and 14\% in Asia
versus the same quarter last year. Wholesale sales decreased $25 \%$, while our direct to consumer sales declined $12 \%$ on a constant currency basis. Within our direct to consumer channels, comparable retail sales declined $6 \%$. Traditional watch sales declined $19 \%$ in constant currency in the third quarter. Smartwatch sales decreased $49 \%$ reflecting lower consumer demand across geographies and reduced marketing as compared to the prior year period. The leathers category decreased $20 \%$ and jewelry sales declined $11 \%$ in constant currency during the third quarter. From a brand lens, the majority of the brands in our portfolio decreased in the third quarter. FOSSIL branded sales decreased $14 \%$ in constant currency largely driven by declines in smartwatches and leathers.
- Gross profit totaled $\$ 161.7$ million compared to $\$ 219.6$ million in the third quarter of 2022. Gross margin decreased 330 basis points to $47.0 \%$ versus $50.3 \%$ a year ago. The year-over-year decrease primarily reflects (i) timing of licensor minimum royalty costs, (ii) increased revenue recognized over time in the prior year third quarter due to the timing of progress in completing performance obligations under a licensing agreement and (iii) net foreign currency hedging contract losses in the current year as compared to gains in the prior year, partially offset by decreased freight costs and improved product margins.
- Operating expenses totaled $\$ 208.1$ million compared to $\$ 197.1$ million a year ago. The increase in operating expenses was primarily driven by increased restructuring costs. As a percentage of net sales, operating expenses were $60.5 \%$ in the third quarter of 2023 compared to $45.2 \%$ in the prior year third quarter. Selling, general and administrative ("SG\&A") expenses were down $2.6 \%$ to $\$ 191.4$ million from $\$ 196.5$ million in the third quarter of 2022 primarily driven by reduced store costs resulting from a lower store count and savings from our TAG initiatives. As a percentage of net sales, SG\&A expenses were $55.6 \%$ in the third quarter of 2023 compared to $45.0 \%$ in the prior year third quarter, largely driven by decreased sales.
- Operating loss was $\$ 46.4$ million compared to operating income of $\$ 22.5$ million in the third quarter of 2022. Operating margin was $(13.5) \%$ in the third quarter of 2023 compared to $5.2 \%$ in the prior year third quarter. Adjusted operating loss totaled $\$ 31.1$ million compared to operating income of $\$ 23.1$ million in the third quarter of 2022. Adjusted operating margin was (9.0)\% in the third quarter of 2023 compared to $5.3 \%$ in the prior year third quarter.
- Interest expense increased to $\$ 5.8$ million compared to $\$ 5.1$ million in the third quarter of 2022 , primarily driven by increased interest rates.
- Other income (expense) was expense of $\$ 3.1$ million compared to expense of $\$ 1.9$ million in the third quarter of 2022, reflecting increased net currency losses in the third quarter of 2023 as compared to the prior year third quarter.
- Income (loss) before income taxes was $\$(55.2)$ million compared to $\$ 15.5$ million in the third quarter of 2022.
- Adjusted EBITDA was $\$(29.3)$ million, or (8.4)\% of net sales in the third quarter of 2023 and $\$ 26.0$ million, or $6.0 \%$ of net sales in the prior year quarter.
- Provision (benefit) for income taxes was a benefit of $\$ 5.6$ million, resulting in an effective income tax rate of $(10.1) \%$ compared to a benefit of $\$ 9.2$ million and an effective tax rate of $59.5 \%$ in the prior year. The effective tax rate in the third quarter of 2023 differed from the prior year third quarter primarily due to a change in the Company's global mix of earnings.
- Net loss totaled $\$ 61.1$ million with net loss per diluted share of $\$ 1.16$, which compares to net income of $\$ 5.8$ million and net income per diluted share of $\$ 0.11$ in the prior year quarter. Adjusted net loss for the third quarter was $\$ 49.0$ million with adjusted net loss per diluted share of $\$ 0.93$ compared to adjusted net income of $\$ 6.3$ million with adjusted net income per diluted share of $\$ 0.12$ in the prior year quarter. During the third quarter of 2023, currencies unfavorably affected net loss per diluted share by approximately $\$ 0.05$.

## Transform and Grow Plan

The Company is implementing its Transform and Grow ("TAG") Plan designed to reduce operating expenses, improve operating margins and advance the Company's commitment to profitable growth. Under the TAG Plan, the Company is focused on 1) revitalizing its Fossil brand, 2) maximizing its licensed brand portfolio in watches and jewelry and 3 ) growing its premium watch offerings.

The TAG Plan is expected to generate approximately $\$ 300$ million of annualized operating income benefits by the end of 2025 through the following actions: 1) driving sales productivity, 2) reengineering end-to-end operations and 3) streamlining overhead and improving capital efficiency. In connection with the TAG Plan, the Company expects to incur charges of approximately $\$ 50$ million in 2023 , and approximately $\$ 100$ million $-\$ 120$ million over the duration of the program.

## Balance Sheet Summary

As of September 30, 2023, the Company had cash and cash equivalents of $\$ 116.1$ million. Inventories at the end of the third quarter of 2023 totaled $\$ 326.7$ million, a decrease of $28 \%$ versus a year ago. Total debt was $\$ 256.4$ million.

## Outlook

The Company is updating its guidance for the full year 2023 to reflect results from the third quarter, as well as ongoing declines in the wholesale channel in the Americas and Europe, a more gradual than expected recovery of sales trends in China and current trends in our retail stores.

For full year 2023, the Company expects worldwide net sales declines of approximately $14 \%$ to $17 \%$ versus prior guidance of negative $5 \%$ to negative $10 \%$. The expected year-over-year decline reflects an estimated fourth quarter net sales decline of $8 \%$ to $19 \%$ and assumes prevailing currency rates which are projected to positively impact sales by 70 basis points.

The Company expects full year 2023 adjusted operating margin ${ }^{(1)}$ in the range of $-6 \%$ to $-8 \%$ compared to prior guidance of $-2 \%$ to $-4 \%$, which reflects an estimated fourth quarter adjusted operating margin of flat to $-5 \%$.
${ }^{(1)}$ A reconciliation of adjusted operating margin, a non-GAAP financial measure, to a corresponding GAAP measure is not available on a forward-looking basis without unreasonable efforts due to the high variability and low visibility of certain income and expense items that are excluded in calculating adjusted operating margin.

## Constant Currency Financial Information

The following table presents the Company's business segment and product net sales on a constant currency basis which are non-GAAP financial measures. To calculate net sales on a constant currency basis, net sales for the current fiscal year period for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average rates during the comparable period of the prior fiscal year. The Company presents constant currency information to provide investors with a basis to evaluate how its underlying business performed excluding the effects of foreign currency exchange rate fluctuations. The constant currency financial information presented herein should not be considered a substitute for, or superior to, the measures of financial performance prepared in accordance with GAAP.

Adjusted EBITDA, Adjusted operating income (loss), Adjusted net income (loss) and Adjusted earnings (loss) per share

Adjusted EBITDA, Adjusted operating income (loss), Adjusted net income (loss) and Adjusted earnings (loss) per share are non-GAAP financial measures. We define Adjusted EBITDA as our net income (loss) before the impact of income tax expense (benefit), plus interest expense, amortization and depreciation, impairment expense, other noncash charges, stock-based compensation expense, restructuring expense and unamortized debt issuance costs included in loss on extinguishment of debt minus interest income. We define Adjusted operating income (loss) as operating income (loss) before impairment expense and restructuring expense. We define Adjusted net income (loss) and Adjusted earnings (loss) per share as net income (loss) attributable to Fossil Group, Inc. and diluted earnings (loss) per share, respectively, before impairment expense, restructuring expense and unamortized debt issuance costs included in loss on extinguishment of debt. We have included Adjusted EBITDA, Adjusted operating income (loss), Adjusted net income (loss) and Adjusted earnings (loss) per share herein because they are widely used by investors for valuation and for comparing our financial performance with the performance of our competitors. We also use both non-GAAP financial measures to monitor and compare the financial performance of our operations. Our presentation of Adjusted EBITDA, Adjusted operating income (loss), Adjusted net income (loss) and Adjusted earnings (loss) per share may not be comparable to similarly titled measures other companies report. Adjusted EBITDA, Adjusted operating income (loss), Adjusted net income (loss) and Adjusted earnings (loss) per share are not intended to be used as alternatives to any measure of our performance in accordance with GAAP.

The following tables reconcile Adjusted EBITDA to the most directly comparable GAAP financial measure, which is income (loss) before income taxes. Certain line items presented in the tables below, when aggregated, may not foot due to rounding.
